

**DETECTIVE BURNS HAS ENTIRE CHARGE OF CASE**

**Search for the Dynamiters Takes Officer Back to Los Angeles.**

**IS SURE OF SUCCESS**

**Sixteenth Body Has Been Recovered From Ruins of the Times.**

LOS ANGELES, Oct. 5.—In keeping with his declaration that the future of the city would be determined by the outcome of the search for the dynamiters, Detective William J. Burns today issued a statement from the Los Angeles police department, in which he said that he was sure of success in the hunt for the conspirators who destroyed the Times building with dynamite on Saturday morning.

After returning to Los Angeles to be near the center of the activity again, he said he came back simply to create a diversion, under cover of which he expects to make a flank movement on the hiding place of the dynamiters. This was the question that tonight Detective Burns has been asked, watching the hunt for the perpetrators of the crime, whose death toll, according to the count of bodies recovered from the ruins today, is twenty-three.

Burns came back to the city openly and brought with him Detective Officers Ryan and Hunter of the San Francisco police department. There was no attempt to use gunshots or tactics from this time, it was supposed that the real work of the hunt for the conspirators in San Francisco. It is believed here that the men who carried out the plot to wreck the Times plant and attempted to destroy the homes of General Harrison Gray and F. J. Zeigler, were expert quarry men from the gold districts of Northern California. This assumption is based on the fact that the men who purchased the dynamite from the Giant Powder Works, used the names of J. L. Brown, the Times editor, and that of his neighbor, Morris, and it is supposed that the detectives at work in the north are trying to trace them back to the mining districts.

**ENGAGED BY MAYOR.**

Burns now has full charge of the hunt for the conspirators. He has been in charge since Sunday, when he was called into the case at a conference with Mayor Alexander. Chief of Police Gallagher and a number of other city officials. It is certain that in his direction, the men working on the case in the north are not lagging. The search for the conspirators has been increased activity at his end, following the returns of Burns, who after consulting with the chief of police and mayor and various other officials, decided that the dynamiters were enough to address the convention of the American Bankers Association. He told the financiers of the work his detective agency had done during the year in behalf of the bankers' organization.

Upon his arrival this morning, Burns displayed a degree of peevishness over the publicity that has been given the movements of the men engaged in the hunt and of the clues supplied by the huge rewards offered for the capture of the conspirators.

"Whenever we accomplished anything north," he said, "I always could read all about it next morning in the papers. This plot was conceived and carried out by clever men and they have been added greatly by the newspapers, which have hampered us in our work."

Burns added that the giving out of information would be stopped at once and forthwith the movements of the detectives became as much of a secret as the identity of the conspirators. He said that the dynamiters are in the hands of the conspirators is to the police.

**SHALL CERTAINLY GET THEM.**

All Burns would say was that "the criminals who blew up the Times and its men last Saturday night, we shall certainly get them."

He declined to answer questions as to what theory he held regarding the plot and the methods used in carrying it out, and whether he thought the dynamiters were the only conspirators.

If he is correct and the entire 500 pounds transported here in that way, then more than three men were in the plot. Three that number of men could hardly carry 500 pounds of dynamite with comfort.

The big aggregated reward of \$100,000, Mayor Alexander said today, was too large. He commented was elicited by the suggestion that still greater rewards should be offered.

"I should like to see them reduced," he added.

**CITY AGAIN CALM.**

The city has resumed its usual calm, the overcast feeling evident directly after the disaster Saturday has subsided. There has not been relaxed measures taken, but the city is in the slightest degree. Instead, the council, by means of another emergency ordinance, passed today, added eighty-five policemen to the fifty-one authorized by the one adopted Monday. Guard is still maintained about the homes of persons who have had part in recent labor disputes, and about buildings where strikes have been in progress for some time.

Another body was recovered from the Times ruins today. It was identified as that of Grant Moore, a linotype operator. The body was uncovered near one of the rear exits of the wrecked building. It was in a kneeling position, and the flesh of the dead man had hardly been scorched. He had been suffocated.

The finding of Moore's body brings the total of bodies recovered up to sixteen, and the known dead, including Churchill Harvey, killed today, is twenty. There have been seven more bodies in the ruins. These probably

**THEOPHILE BRAGA IS PRESIDENT OF NEW PORTUGUESE REPUBLIC**

**Provisional Government Chosen—Royal Family Takes Refuge at Mafra— Revolution Has Not Affected Oporto or Rural Districts—Hundreds Killed in Fighting But Order Now Restored at Capital.**

Portugal has been proclaimed a republic. According to the latest Lisbon advices, Theophile Braga, Republican leader, is the new president.

The Portuguese "Marseillaise" is now the new national anthem, and the emblem of monarchy on the palace has been replaced by the flag of red and green, the colors of the Republican party.

That there was fierce fighting on the streets of Lisbon is evidenced by dispatches from all quarters. Disorders at Oporto have been repressed by the troops, many regiments of which are said to be still loyal to the king.

King Manuel, the queen mother and the queen dowager are reported to have taken refuge in the palace at Mafra, a short distance from Lisbon. They may now be on a British warship bound for Gibraltar. At least they are considered to have reached a place of safety.

London advices state that by a treaty of alliance, Great Britain is bound to afford protection to the king of Portugal, if this is "duly applied for." The French newspapers are urging the government of France not to permit intervention, even if Spain too is threatened with an overthrow. The French cabinet will meet tomorrow to deliberate on the Portuguese situation and on the advisability of sending a warship to Lisbon.

Already British warships are on the way to protect British interests. The American gunboats Petrel and Wheeling are at Genoa, within easy reach of Lisbon, should the American government decide to send them there.

No detailed account of the fighting has been received or any definite estimate of the casualties. One incident, according to the Lisbon dispatch, is the visit paid by the Spanish minister to the Republican leaders after the fall of the palace and after the flag of the revolution was hoisted on the town hall.

**DUKE OF OPORTO, HEIR TO THRONE, HAS PUT TO SEA**

LISBON, Oct. 6, 5:30 a. m.—The yacht Amelie has put out to sea with the Duke of Oporto, who embarked at Cascaes. It is believed the yacht is going to take on board other members of the royal family.

**HEARST AGAIN RUNS FOR OFFICE—HAS MINOR PLACE ON TICKET**

Independence League of New York Nominates Hopper for Governor.

**HEARST SECOND PLACE**

Platform Declares Opposition to Murphy's Tammany Organization.

**THREE CARDINALS ASSIST IN CHURCH CEREMONY**

NEW YORK, Oct. 5.—Three cardinals, the most distinguished assembly in this country, with a host of lesser church dignitaries, participated in the ceremonies of the consecration of St. Patrick's Roman Catholic church today.

The ceremony, which was the first of its kind in the United States and Canada, was presided over by the prelates attending Most Reverend John M. Farley, archbishop of New York, who was the consecrator of St. Patrick's in the ceremonies which mark the opening of the cathedral from the ruins.

The occasion was further honored by the presence and participation of Cardinal Logue, primate of all Ireland.

The ceremony of the consecration, which was the opening of the church, consisted in the anointing of twelve crosses on the inner wall, "Sanctification of the altar," and the consecration of the altar.

A pontifical mass at 11 o'clock celebrated by Cardinal Logue and presided over by the archbishop, followed by the consecration of the altar, the apostolic delegate, was the celebrant, with the other notable parts of the day's program.

**REPUBLICAN PROCLAMATION**

LISBON, Oct. 6.—This afternoon the following proclamation was issued by the provisional government to the Portuguese people:

"The people, army and navy, have succeeded in proclaiming a republic. The Republic is a new, free, and just, and finally ends our country's bondage."

"This rare event, representing the pride of an untamable race and the selection of a country whose bravery is proverbial, fills with enthusiasm the hearts of patriots and finally ends our country's bondage."

"Our aspiration for a regime of liberty" stands revealed brightly in its virgin essence."

"Citizens: The present moment presents and recompenses for all struggles and the sorrowful apprehensions we endured. This moment must be the commencement of a new era of justice, morality and immutability. In order that the glorious communion of principles shall make of our sacrifices for our country the base of our political program and our generosity toward the vanquished, we solemnly declare that the Republic is the basis of our moral program."

"Citizens: Let interest in our beloved country animate you and a just desire to be great—unite you. The republic has confidence in the people for the maintenance of social order, respect for justice and devotion to the common cause of liberty. Consolidate with your love and sacrifice the work which springs from the Portuguese Republic."

**CANNED SALMON BUSINESS GROWING**

SEATTLE, Wash., Oct. 5.—Exports of canned salmon from Puget Sound during September were more than 300,000 pounds in excess of shipments during the same month last year, according to the statistics issued yesterday by the collector of customs, F. C. Harper.

The shipments for the month showed increases to England of nearly 200,000 pounds and to the Philippine Islands of more than 100,000 pounds. The total shipments of canned salmon to all countries amounted to 1,155,698 pounds valued at \$106,013. Of this amount England took 641,000 pounds, the Philippine Islands 444,000, the Straits Settlements 40,000, German Oceania, 12,000, and British Oceania, 10,000 pounds. A small shipment was also sent to Hongkong, Australia, British India, Chile and Peru, which were good customers last year but no salmon this year, but the loss of these customers is more than made up for by increases in purchases by England and the Philippine Islands and the acquisition of German Oceania, which did not appear in last year's list.

**THREE CHINESE ARE CAUGHT AT TIA JUANA**

Big Gang Said to Be Waiting for Chance to Cross the Border.

SAN DIEGO, Cal., Oct. 5.—Three Chinese, caught crossing the international border line at Tia Juana, Mexico, are in the county jail here awaiting deportation. As far as known, the three are the only ones who have been caught since the fifteen Orientals were caught about ten days ago. The three Chinese in question were brought to San Diego yesterday afternoon. The line is being closely guarded from Mexico west by immigration officers, as it is known that a big gang of contraband Chinese is scattered in the hills around Tia Juana awaiting opportunity to enter this country. The three Chinese now in jail were caught walking along the track of the San Diego and Arizona line. As none of them are provided with papers showing their right to enter the United States they will be deported.

**COOKING SCHOOLS FOR PROSPECTIVE BRIDES**

PITTSBURG, Oct. 5.—The spirit of the uplift in this city is now directed toward the coming of the prospective brides. The action of the domestic science committee of the schools in McKeesport last night in establishing classes in cooking for prospective brides is expected to result in an increase in matrimony.

The committee, which is composed of a number of mothers with eligible daughters, announced that the cooking department of the schools will be thrown open for night classes for young women who will pay the nominal fee of 25 cents for ten lessons.

Almost simultaneously, and but a few miles away, in this city, a number of women organized the Housekeepers' Club to carry out a plan to solve the servant girl question. A committee was appointed to devise ways and means of obtaining good servant girls and even then after they are captured. The idea was put forth by Mrs. Anthony W. Smith, a former president of the Woman's club.

**PRIVATE PROPERTY SAFE**

Thus far, however, no attack has been made upon private property and it is reported that the banks are being guarded by bluejackets.

No news has been received from the insurgent forces. The insurgents have been cut off and dispatches and messages of all kinds have been suppressed.

All through the night artillery fire was incessant and toward dawn it increased in intensity. At 11 o'clock the night insurgents encamped on the heights of Avenida de Liberdade tried to force their way to the center of the city, but were driven back by loyal troops.

As the latter passed the barracks of the first artillery, they discovered that it was in the hands of the rebels. They charged the cannons and dislodged them, inflicting considerable loss. The night firing was carried on in complete darkness, the electric lights having failed. The insurgents were led by the retired admiral, Carlos Reis. Their forces were greatly augmented by desertions from among the monarchists and they succeeded eventually in getting control of the city.

The inhabitants today paraded the streets in their carrying rifles, singing the Portuguese Marseillaise, which has now become the national anthem.

Red cross ambulances and police and men from the fire brigade were patrolling the streets and removing the dead and wounded.

**ROYAL EMBLEMS TORN DOWN.**

The revolutionists raised all buildings that flew the old flag and tore down the emblems of the monarchy. The warships graced the harbor of the republic with the colors of the republic.

Red cross ambulances and police and men from the fire brigade were patrolling the streets and removing the dead and wounded.

**REPUBLICANISM GROWS IN PORTUGAL**

NEW YORK, Oct. 5.—Audison S. Gonyea, acting Portuguese consul here said today he had no intention that upheaval was imminent and he was without advice from his government regarding conditions in Portugal.

"I was in Portugal a year ago. Unrest was abundant, but Republican sentiment seemed to be growing. Plots and counter plots were common."

"Still most of the Republican sentiment is in the metropolitan district of Lisbon and its environs. The country districts are still supporters of the crown."

"Then there is the church question to complicate matters. The anti-clerical feeling is to a great degree co-existent with the anti-monarchical feeling. What surprises us most in the dispatches is the fact that the army and navy turned against the king. Hitherto they have been uniformly loyal. Of course, if they have actually turned against him, which I am inclined to doubt, the present revolution will be permanent. Troops hold the key to the situation."

**ILLINOIS GRAFTERS MUST BE WITNESSES**

Senate Committee Refuses to Exempt the Men Accused.

CHICAGO, Oct. 5.—Lee O'Neil Browne, Democratic leader of the Illinois House of Representatives, who is under indictment in connection with the election of William Lorimer to the Senate, will be called to testify before the Lorimer Congressional committee.

The same ruling was made by the committee today in regard to State Senator John Broderick, now under indictment on the charge of having voted for Senator Lorimer, and applies also to Representative Robert E. Wilson, against whom bribery charges are pending.

Neither Browne or Broderick, who were on the stand for a few moments today, were questioned, because of the plea of Attorney Thomas Dawson, counsel for both, that he wished to confer with his assistants before advising his clients what course to pursue. The committee reluctantly granted counsel until tomorrow to do his course.

Representative Daniel D. Donahue, a Democrat from Bloomington, testified this afternoon that he did not vote for Senator Lorimer, and that he sought to prevent his election because he believed that the session had adjourned without electing a Senator, a Democrat would have been elected at the next session.

"I was asked to vote for Mr. Lorimer," said Donahue, "but I refused. No offer of money or any other thing was made to me, and no intimation was ever given to me that I could profit by so voting."

Harvey summoned Miss Katherine A. Woods of East St. Louis to rebut testimony of Representative Charles A. White. Miss Woods declared in the fall of 1909, White took her to dinner and declared that he was writing a history of his life and the occurrences in the legislature and expected to make a fortune out of it and that Lorimer and his friends would have to pay him enough to keep him for life or he would make it hot for them.

William H. Sturmer, assistant manager of the Briggs hotel, which is Browne's headquarters in Chicago, testified concerning threats he said White had made to declare falsely he had been bribed to vote for Senator Lorimer and to compel Senator Lorimer, and his friends to enrich him.

Representative Henry Terrell of California, Republican, and Representative Homer F. Shaw, Democrat, were among the day's witnesses. Terrell caused a stir on cross examination, when in

**KLAW & ERLANGER PLAN A BUILDING IN PORTLAND**

PORTLAND, Ore., Oct. 5.—Klaw & Erlanger have closed a deal in this city by which they have secured property at Eleventh and Morrison streets, and will erect a theater building to cost about \$250,000. The theater will be ready for occupation September 1, 1911, according to Mary Klaw, who has been in Portland several days concluding arrangements for the site and building.

**SULTAN SAILS HOMEWARD.**

SAN FRANCISCO, Oct. 5.—The Sultan of Bulu with his retinue of aides and servants sailed today on the United States army transport Sherman for his island home. Before leaving he expressed himself as much at home in the United States and said he would make an annual visit to this country hereafter.

Will be uncovered by the steam crane which is now at work on the ruins. Few of the bodies so far recovered have been even partially identified. The bodies of the conspirators have been established as: Charles Haggerty, pressman; John Howard, printer; J. Wesley Reavey, stenographer; Eugene Carney, machinist; Harry L. Crane, assistant linotype operator; and Howard C. Woodward, printer.

**STRANGER AMONG DEAD**

A man named Bowers may prove to be one of the unidentified in the list of the dead. Mrs. Wood, 29 California street, tonight told of having met Miss Bowers, whom she knows by name only, wandering about in a dazed condition the morning of the disaster. Mrs. Bowers said she had gone with her husband to the Times building and waited for him on the outside while he went up to the editorial room. Then the explosion occurred and Mrs. Bowers said she later saw her husband appear at a second story window and fall. At that time, the story of a man falling back from a window was told by several spectators the morning of the fire.

The peculiar feature of the case, however, is that nothing has since been heard of Mrs. Bowers.

**STRANGER IS NEEDED**

An irony of fate came to light today by the uncovering of what is believed to be the only recognizable mass in the ruins of the "Times" of the Times. The "mystery" consists of photographs and matter relating to persons who may figure in events of the day. The Times magazine was on the third floor and shortly after it crashed through to the basement, the wall and collapsed and a pile of bricks from a fairly well protected room fell from the floor.

Another odd incident in connection with uncovering the ruins of the "Times" is that the first envelope picked up contained a photograph of Madame Thelen, the noted French actress, who declares the world will have a bad time in 1910.

**NOTED HORSEMAN, APPLEBY, IS DEAD**

NEW YORK, Oct. 5.—Lucien O. Appleby, one of the best known horsemen in the country, is dead at the Red Cross hospital here of heart disease. He had been actively engaged in racing since 1905. He was a former part owner in the Monmouth Park race track and was one of the builders of the track at N. J., which was abandoned at ten years ago. He Silver Brook farm at Red Bank, N. J., had been the home of many famous horses.

Appleby was the breeder of Henry of Navarre, Knight of the Thistle and other well known thoroughbreds.

**MADERA AUDIENCE WAITS FOR BELL**

Accident to Auto Delays Democratic Candidates Two Hours on Road.

MADERA, Cal., Oct. 5.—Although delayed by an accident to their automobile which held them two hours on the road, Theodore Bell and Timothy Spallary, Democratic candidates for governor and lieutenant governor, arrived in Madera tonight before the crowd that awaited them had drifted away.

Bell's address was received with frequent applause, particularly when he promised his hearers if elected he proposed to take the railroads out of politics.

At the conclusion of Bell's remarks, Spallary briefly outlined his political creed. He was followed by D. C. Wall, candidate for railroad commissioner, and both men received hearty applause.

The party left here at 6:30 tonight for Merced.

**CITY AGAIN CALM.**

The city has resumed its usual calm, the overcast feeling evident directly after the disaster Saturday has subsided. There has not been relaxed measures taken, but the city is in the slightest degree. Instead, the council, by means of another emergency ordinance, passed today, added eighty-five policemen to the fifty-one authorized by the one adopted Monday. Guard is still maintained about the homes of persons who have had part in recent labor disputes, and about buildings where strikes have been in progress for some time.

Another body was recovered from the Times ruins today. It was identified as that of Grant Moore, a linotype operator. The body was uncovered near one of the rear exits of the wrecked building. It was in a kneeling position, and the flesh of the dead man had hardly been scorched. He had been suffocated.

The finding of Moore's body brings the total of bodies recovered up to sixteen, and the known dead, including Churchill Harvey, killed today, is twenty. There have been seven more bodies in the ruins. These probably

**FOUR STARTERS IN AEROPLANE RACE**

CHICAGO, Oct. 5.—McCurdy, Willard, Ely and Post, who it now appears will be the only starters in the Chicago Aero-Plane race which will begin next Sunday, made successful trial flights here today. Taking advantage of the fact that there was scarcely a breath of wind, Willard flew through the drainage canal.

The race will start at 3 o'clock in the afternoon instead of in the morning, as previously announced. Letters on a dark background beneath the machine will identify the machines.

The flight, as follows:

A. J. A. D. McCurdy,  
R. Eugene Ely,  
C. Amhurst Post,  
D. Charles F. Willard.

**CROPS ARE GOOD IN THE NORTHWEST**

SEATTLE, Wash., Oct. 5.—J. W. Hannaford of St. Paul, second vice president of the Northern Pacific railroad, who arrived in Seattle yesterday on an inspection of traffic conditions, expressed the opinion that crop conditions are much better than have been reported.

"Instead of crop failures in North Dakota," he reported, "an 80 per cent yield along the line of the Northern Pacific," he said. "The wheat shipments this year from Western Washington to coast terminals will be about 70 per cent of normal."

Hannaford estimates that 2000 cars of apples will be sent to the East from the North Yakima country.

**KILLED BY TRAIN WHILE GETTING WIFE'S MEDICINE**

RAN JOSE, Oct. 5.—Joseph Valenzuela, a night watchman for the Pacific Brandy Company, was run down and killed by a rapidly moving Southern Pacific train today while rushing to a drug store to procure medicine for his wife, who is ill. The physician was withholding news of the tragedy from the sick woman, fearing the shock would kill her.

Valenzuela was a native of Mexico and had been in the United States for some time. He was a night watchman for the Pacific Brandy Company, which is a subsidiary of the Southern Pacific Company. He was run down and killed by a Southern Pacific train today while rushing to a drug store to procure medicine for his wife, who is ill. The physician was withholding news of the tragedy from the sick woman, fearing the shock would kill her.

MAUD LILLIAN BERRI IS GRANTED DIVORCE

Decree Is Given by Judge Nostrand on Grounds of Desertion.

On the grounds of desertion, Maud Lillian Berri, daughter of the late Fulton G. Berri of this city and an actress of national reputation, secured an interlocutory decree of divorce in Judge Nostrand's court in San Francisco Tuesday from Frank Moulan, counsel.

Mrs. Berri stated on the stand that the desertion took place on March 25, 1909, while the couple were in Fresno. She and her husband had been playing cards with her parents and the game broke up about midnight. Two hours later, she said, Moulan packed his belongings and left and he has never returned to her. When he left she said he left a check and later sent her some money but payments on both checks were stopped by him.

Maud Berri and Frank Moulan were married in Chicago on September 20, 1901.

Mrs. Mary E. Berri, mother of Maud Berri took the stand in the hearing before Judge Nostrand and corroborated the testimony given by her daughter.

NOTHING FITS your case, if you're overworked or "run down" woman, like Mr. Pierce's Favorite Prescription. In any condition of the female system this "Prescription" will build up, strengthen, regulate, and cure.

Every woman needs it. It lessens the pains and burdens of child-bearing, insures healthy, vigorous offspring, and promotes an abundant secretion of nourishment to the part of the mother.

It is an invigorating tonic made especially for women, and the only remedy made without alcohol. It cures periodic pains, bearing-down sensations, displacements, and all "female complaints."

No substitute is as good. How to procure this health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send Dr. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing only, for cloth binding 21 stamps.

**You May See Without Pain**

But that does not signify that your eyes are in perfect condition. Behind the eye in many instances there lurks a dread disease. Convince yourself that your eyes are all that they should be. Bring your eyes to me. Let me examine them and advise what is best to do. I am an expert in fitting glasses, so if that is the remedy, you have come to the right place. I enjoy the confidence of fifteen thousand satisfied customers, so you take no risks.

ASSAULTS MAN WITH SHOVEL; ARRESTED

Negro Brought to the County Jail by Constable Mason of Fowler.

William Bailey, colored, was brought to the county jail from Fowler yesterday by Constable Mason and is being held there on a charge of assault with a deadly weapon. In default of \$1000 bail, he is an inmate of the county jail. Bailey was arrested in Fowler yesterday morning after he had been seen by a physician to bring him to himself again. Bailey was placed under arrest by Mason and taken before Judge Avenell. He was informed of his rights and bail was fixed at \$1000. The date for his preliminary examination has not yet been set.

COUNTY CANDIDATES TO VISIT COALINGA

Big Republican Meeting Is to Be Held in Oil City Saturday Night.

Candidates for election on the Republican county ticket will journey to Coalinga Saturday night, where the Republican county campaign will be formally opened.

The Republican club of Coalinga is making elaborate preparations for the reception of the candidates and a meeting that will exceed anything of the kind held there this year will in all probability be held in addition to the regular speaking of the evening, special music will be furnished by the Coalinga band and a pianist in Coalinga and Otis Turner of this city will contribute two or three vocal selections in the shape of campaign songs.

It was asserted yesterday that practically every Republican county and legislative candidate will be present at this meeting Saturday night. The principal addresses of the evening will in all probability be given by J. P. Bernhard, chairman of the Republican county central committee; W. F. Chandler, candidate for the assembly from the 40th district; and M. Drew, candidate for the state senate from this district.

FOUR MEN JAILED FOR ROBBING DRUNK

Four men, giving their names as D. Boucher, F. Williams, C. J. Smith and Harry C. Smith, were arrested by Acting Sergeant Farnam and a squad of police last night at the Fresno Beer Hall for the alleged robbery of one Jack Peck while the latter was in a drunken condition at that place. The men were charged with vagrancy at the county jail, but a more serious charge may be placed against them today. The police were called to the beer hall shortly after the robbery was supposed to have taken place and found the men still loitering around there.

MANY PERSONS SUFFER DAILY

from distress after eating. They have Heartburn, Bloating, Belching, Smothering sensations, etc. If you are among that number let us persuade you to try

**Sell Real Estate**

I want young men or women under thirty-five to sell high-class real property on easy payments in the country. Best proposition in California for buyers and sellers. Exclusive territory, best commissions, permanent employment.

**Requirements**  
Selling ability. Experience—preferably real estate. Knowledge of territory: some acquaintance with Southern, South, Southern, California, etc. **Make from \$3,000 to \$10,000 a Year**

I have addresses who make that amount annually by selling their brains instead of their 25-cent apples.

If you can qualify, write, giving particulars, to **P. O. Box 406 San Francisco**

HUTTING TO BE NEXT HEAD OF BANKERS

Special Needs of Trust Companies Considered at Convention.

LOS ANGELES, Oct. 5.—Charles H. Huttig, president of the Third National Bank of St. Louis, will be the next chairman of the executive council of the American Bankers' Association. This was made a practical certainty today by the withdrawal of William George of Aurora, Ill., whose friends had urged him to be a candidate for the office.

The election of chairman of the executive council does not come up until Friday, but with the withdrawal of George, which was announced today, it is considered by all of the delegates that Huttig will be the unanimous choice of the convention for the high office.

F. O. Watts, president of the First National Bank of Nashville, Tenn., and at present vice-president of the association, is scheduled to succeed to the presidency, according to the progressive rules of the association, and Colonel Fred E. Barnsworth, the present secretary, will succeed himself.

The question of selecting the city for the 1911 convention continues to be a subject of interest. San Antonio, New Orleans, Atlanta, City and Richmond, Va., are vying for the honor of entertaining the delegates to the American Bankers' association next year, and a hard fight is on between these cities. Representatives of the Texas city are making a particularly strong fight and are conducting a personal canvass of the delegates. The matter will be taken up by the convention Friday next, but it is possible that no decision will be rendered by the executive council until next May.

Interest in the doings of the visiting bankers centered in the business session of the trust company section of the association and the annual meeting of the secretaries of state bankers associations in the Auditorium.

Oliver C. Fuller of Milwaukee, who presided at the meeting of the trust company section in the absence of President H. P. McIntosh, was elected president of the section for the ensuing year. Members of the executive session were chosen as follows:

J. C. Drake, Los Angeles; W. C. Poirer, New York; Roland L. Taylor, Philadelphia; Isaac H. Orr, St. Louis; E. L. Hoy, Boston.

In the meeting of the secretaries of state associations the president, F. E. Keyser, of St. Louis, was chosen to succeed himself and Secretary Farnsworth was also re-elected to the position. He now holds as secretary of the state associations. The meeting of the trust company section was attended with more than usual interest and the papers read and the discussion following were of a largely technical nature of interest to the bankers in attendance. The meeting was called to order by President Oliver C. Fuller and addresses of welcome were delivered by Joseph Scott, president of the Los Angeles Chamber of Commerce, and J. C. Drake, president of the Los Angeles Trust and Savings Bank.

ST. LOUIS, Oct. 5.—"Should the ownership of shares in banks continue to be represented by certificates commercially negotiable?" was the subject of a paper by Sturgesant Fish of New York, which was read by Colonel F. H. Pries of New York in the absence of Fish.

Other addresses were made by William C. Poirer of New York, William M. Baldwin of Cleveland, Edgar Stark, Cincinnati; Isaac H. Orr, St. Louis; F. J. Parsons, New York; Dinner Beeber, Philadelphia; Edward O. Stanley, New York, and others.

The question of whether any city shall be endorsed as the place to hold an exposition in honor of the opening of the Panama canal in 1915 is one that is interesting the delegates to a large degree. San Francisco, represented by F. L. Brown, and New Orleans represented by Sol Wexler, are presenting the claims of their respective cities to the delegates and it is possible that a resolution endorsing San Francisco will be introduced at the convention next Friday. Some of the delegates are reticent on going on record in the matter of endorsement in declaring that the convention should not endorse either city.

HOKE SMITH RE-ELECTED GOVERNOR OF GEORGIA

Independent Movement for Governor Brown Fails of Success.

ATLANTA, Ga., Oct. 5.—Hoke Smith was today elected to serve a second term as governor of Georgia. Incomplete returns indicate that Smith, who defeated Mr. Brown, who was defeated for the gubernatorial nomination in the Democratic primary, had whose name was today placed before the voters as an independent Democratic candidate, received majorities in two counties only.

All the regular Democratic nominees for state and county offices were elected, the vote for the Socialist ticket being inconsequential.

Three constitutional amendments apparently were adopted by large majorities.

Governor Brown stated before the election that the action of Thomas L. Watson and others in placing his name before the voters as an independent candidate was without his authority, and he announced that he would support the regular party nominees.

MORGAN LOANED CREDIT OF THE ENTIRE COUNTRY

Lincoln Steffens Tells How the Financial Situation Was Saved.

During the "panic" year of 1907 I crossed the continent two or three times, and I heard everywhere the uncomprehending complaints of business men that they couldn't get their "own money" out of the local banks. Financial stringency was my subject then, but these periodic breakdowns of the financial organization of our boasted business system have always interested me, so I called on local bankers in all cities where I halted. They couldn't explain. They simply passed up the blame. They said that they couldn't get their own money out of the New York banks.

In New York the bankers denied the charge. I don't understand why they did so; it was true, and it was soon shown to be true. At the height of the blind staggers of these blind leaders of the blind, we all saw Mr. Morgan send word to the stock exchanges that the speculators might borrow money. And we were invited to admire Mr. Morgan as the savior of his country, the whole country. I don't understand why we should admire the act. It was proclaimed unofficially that the money loaned to the stock-brokers was of Morgan's own and John D. Rockefeller's millions. It wasn't. Their money was going into the purchase at panic prices, of stocks to be held for the rise. And it wasn't the country bankers' depositors' money, either. Their money was very largely where the country bankers had it put: in previous loans on stock exchange collateral.

To be very precise, it wasn't money at all. It was Morgan's loaned. It was the combined credit of the Associated Clearing House banks put out by Morgan for all of them against clearing-house certificates. But back of this credit was the credit (and the money) of the people of the whole country. So that all these places were represented by Mr. Morgan, and they were and they are directly affected by the policy of New York in a panic of throwing the country's good credit after its bad money into the stock market. And why not? The stock market is the hottest part of the fire. But, having poured it in there, and checked the flames, why deny it? And having done all that, why deny it? But above all, why not see that Wall Street is the national market-place, and that the head man there is the head of the financial system of Spokane, and Sacramento, Omaha, and the United States?—Lincoln Steffens in the October Everybody's.

AMERICANS AT PEKING.

PEKING, Oct. 5.—The delegation of American business men, representative of chambers of commerce on the Pacific coast, arrived here today. They were cordially received at every stopping place from Shanghai to Peking. In each instance were tendered a banquet by the viceroys and members of the provincial assembly.

An elaborate program of entertainment here has been planned. It includes an imperial audience and the first dinner to be given by the members of the new imperial senate.

**TRANSPORT SHERMAN SAILS.**  
SAN FRANCISCO, Oct. 5.—The army transport Sherman sailed today for Manila via Honolulu and Guam. On board were four troops of the Fifth Cavalry, bound for Honolulu, and Battery C, of the First Field Artillery, destined for the Philippines.

**MORE LAND FOR ENTRY.**  
WASHINGTON, Oct. 5.—Secretary of the Interior Ballinger reported today to the public domain 125,000 acres of land which he temporarily withdrawn in 1908 and 1909 for the purpose of creating the Alabama national forest.

**AN ANTISEPTIC CHILD.**  
Little Walter was always carefully guarded against germs. The telephone was sprayed, public conveyances and places were forbidden him.

"Father," he said one night, in a tone of desperation, "do you know what I am going to do when I grow up?"

"What?" asked his father, preparing himself for the worst.

"I'm going to eat a germ."—Success Magazine.

**UNCONSCIOUS.**  
"It was only my your extravagant tastes," said the desperate man, "that I committed this forgery. The crime is upon your head."

The woman started and gazed at him wondering, "Is my crime on straight?" she asked.—Success Magazine.

HUMAN REPUBLICANISM PREACHED BY JOHNSON

Candidate Makes a Notable Speech to Audience at Santa Barbara.

SANTA BARBARA, Oct. 5.—Hiram W. Johnson, Republican nominee for governor, addressed a large audience last night in the Santa Barbara opera house on the close of a strenuous day of travel and speech making.

Johnson reached Santa Barbara shortly after 6 o'clock this evening and was escorted to the Potter hotel, where he was the dinner guest of a reception committee of twenty. The meeting at the opera house was called to order by Jesse L. Harbut, chairman of the Republican county committee, and was presided over by R. Cameron Rogers, proprietor of the Santa Barbara Press.

Johnson's speech was one of the longest he has made at any point during his present tour and was a thorough summing up of the doctrine of the brand of politics which he terms "Human Republicanism."

Johnson lectured at 6 p. m., reaching Central at 11:30. There he made an address at home.

During the afternoon Johnson was taken by automobile through Ventura county, making brief stops and addresses at Santa Barbara and Ventura. At the latter place he was welcomed by a band and held an informal reception at the office of the Ventura Daily Free Press.

M'CREID PUTS HETTLING ON BENCH, PENDING A DECISION

PORTLAND, Oct. 5.—Congressman W. W. McCredie, principal owner of the Portland team in the Pacific Coast League, today received a message from Judge Graham of San Francisco, president of the league, forbidding the playing by Portland of this Hetting, pending the disposal of the protest of the Oakland club. This is Judge Graham's final ruling after having received protests from Judge McCredie at a previous ruling to the same effect. Oakland has protested Hetting on the ground that he is under contract to the Spokane team in the Northwestern League. McCredie denies any such contract exists and asserts that Hetting was merely loaned to Spokane and has been continuously upon Portland's reserve list.

APPLAUSE UNDER DIFFICULTIES

Opie Read, the novelist, appeared as entertainer for a switchmen's convention in Peoria.

"It was a very enthusiastic audience," said Mr. Read. "They laughed heartily, but they didn't applaud much. You see, there were so many one-armed men there, that they had to applaud in pairs."—Success Magazine.

## PASS THE AMENDMENT

Now that the legislature has amended the tax-separation constitutional amendment, so as to remove all the substantial objections to it, it ought by all means to pass at the election this fall.

The general principle of the new tax system is approved by all sound theory and sustained by experience wherever it has been tried. In fact, the underlying principle of the amendment has not been seriously assailed in any of the discussions during the five years in which it has been before the people. The objections have been to details, and these are now substantially removed.

The proposal, as is probably generally understood, is that the sources of state and local taxation shall be completely separated. Local property will pay the local taxes and general business will pay the state taxes. To illustrate: under this system the farmer will pay no state taxes and the railroad will pay no local taxes, except on such local property as it may own and use for local purposes. The entire expenses of each county and city government will be borne by the property and local licenses of that county and the city, while the entire expenses of the state government will be borne by a special tax on corporations doing a general business and not local in their nature. This tax is in general a definite proportion of their gross revenues, so computed that it is estimated to be the equivalent of a 1 per cent property tax on all their property, if that were correctly assessed at 100 per cent of its full value.

In the case of banks, the value of whose capital and surplus is infallibly ascertainable, the tax is 1 per cent of that capital and surplus. In the case of railroads it is 4 per cent of their gross earnings within the state, those earnings being computed to be the entire revenue from business wholly within the state, and a mileage percentage of the revenue from all business partly in and partly out of the state. The rates for other corporations have been carefully computed, by a commission of experts, which has spent five years at the task, to be a tax burden equivalent to those two typical cases. It is estimated that these taxes, on the corporations now doing business, will produce a revenue sufficient to meet the present expenses of the state, and that the revenue will increase with the growth of the state's needs. Also, the rates of tax may be changed, by a two-thirds vote of the legislature, if found necessary. But, in the improbable event of there being a deficit, it is to be met by a general ad valorem tax on all the property in the state, including that of the state-taxed corporations.

Careful computations have been made of the effect of the proposed change on the revenues of every county in the state, and it is found that nearly every county will be better off than it is now. That is, with the same tax rate as now, and with all the local revenues kept at home and no state revenues returned to the county, nearly every county will have more money, out of the same taxes, than it has now. A few counties, like San Bernardino and Placer, with a long railway mileage and very little other property, would suffer severely, and there are lesser inequalities against a few other counties, but the legislature is authorized, for ten years, to make special provision for these few counties. All the rest will be much better off, and the net gains total much more than the net losses. The corporations pay the difference.

The system has two vital advantages. One is that local taxes can be levied locally. If one county finds it to its interest to have a high assessment and a low tax rate, and another prefers low assessments and a high tax rate, it is nobody's business. There will be no state equalizing to bicker over. The other is that it equalizes the tax burden. A general property tax is never equal, because some forms of property can be concealed, undervalued and others cannot. The farmer and the real estate owner always pay more than their share. The same thing is true of any other tax. All forms of taxation are unequal. An income tax, for instance, bears unequally on the professional man, who may have a high income but no security for its continuance. The only way to equalize these inequalities is to balance them against each other. The proposed gross income tax on corporations, for instance, and the capital tax on banks, leaves heavier on those who now most generally escape taxation under the general property tax, by putting on the stockholders in these corporations, somewhat unequally, the whole burden of supporting the state government, while putting on local property owners, with the reverse inequality, the whole burden of supporting the local governments, the two inequalities offset each other, and the final result is more justice than would be obtainable under either system alone. Certainly it is far preferable to the present system, in which the heavy and remote of visible real estate taxes nearly the entire burden of supporting the state government.

The amendment was proposed in 1905, and was defeated largely on account of the fact that the legislature had not passed the tax-separation amendment. The tax-separation amendment was passed by the legislature in 1909, and the amendment was passed by the legislature in 1910.

COW'S REPUTATION  
AT ISSUE IN COURT

NEW YORK, Oct. 5.—The state supreme court here has been asked for an injunction to guard the reputation of a cow. The cow's owner, Harry E. Brown, of South Portland, Me., asks that the state supreme court should restrain him from repeating his record as submitted by him to the state supreme court. The cow, "Missy" of the town, is credited by the Rhode Island Experiment station with 14,000 pounds of milk in 1909, and 15,000 pounds in 1910. The cow is a single year, and on this basis she claims to be the world's champion.

the maximum rates proposed by the commission. Those rates were fixed in the constitution, beyond change by the legislature. And if those rates did not produce revenue enough, the deficit was to be assessed on the remaining property of the state, the corporations being exempt. In spite of these defects, the Republican some-what doubtfully supported the amendment, on the ground that even with its faults it was far better than the present system and was a step in the right direction. But the people concluded to try again, and probably they were right.

So the last legislature proposed a new amendment, meeting these three points, at least in part. The rates on the corporations, except banks, were increased; the legislature was authorized by a three-fourths vote, to change the rates, and if there was a deficit, all the property of the state, including the corporations, was to bear it.

But even in this form, the amendment was open to objections. The bank tax of six-tenths of one per cent was acknowledged by everybody, including the commission and the committee that made the bill, to be too low, since it was computed on a basis lower than that adopted for the computation of all other taxes. The only excuse for the low tax was the fact that a delegation of bankers induced the committee to lower it, and the fear that the banks would make the political influence to defeat the measure before the people, unless given special exemption to keep them quiet. The three-fourths vote required of the legislature to change the rate was too high. And there were local objections, in two or three counties, because the special provision made to cover the large deficit in San Bernardino, was not extended to cover their smaller deficits.

The special session of the legislature, called to remedy a mere clerical error in the amendment, fortunately corrected these defects, too, and it now goes before the public in a form as near perfect as any such measure is ever likely to have at its first trial. It is of course too much to hope that it will be found flawless. Faults will be developed in the criticism of the campaign and others will be developed by experience. But we must find out some things by trying. If we want to get a tax law that can be guaranteed perfect in advance, we shall wait forever, meantime resting under our present system, which is conceded to be about the worst possible. The one sensible and progressive thing to do is to adopt the amendment, as now perfected, and to trust to the future to make it even better.

## PORTUGAL

One does not have to be a rabid republican to be able to hope that the revolutionary movement at Lisbon may be successful in bringing the entire Portuguese nation under the new republican form of government, with a little delay and as little bloodshed as possible. The rule of the house of Braganza has long shown itself to be thoroughly inefficient. A change is absolutely necessary if anarchy is to be avoided. A republic is the happiest solution of what has been long a vexed question.

While we in America believe thoroughly in republican forms of government, as a practical question it would not be wise to advocate a change from monarchy to republic in every nation of the world at once. Presumably some countries are still too barbarous to appreciate self government, others too heterogeneous, and still others too well contented. But none of these things are true of Portugal. The Braganza, in two branches of that royal house, have failed to give good service to the Portuguese people. The only alternative, is the naming of another royal line, to which the great objection could be raised that it would have the antagonism of both the theoretical republicans and the adherents of the old royal family. A republic will have the support of the great mass of the people and will be opposed by only the small number whose affections or whose interests lie with the family of Manuel.

But, the republic, like the fallen monarchy, must stand or fall upon the test of efficiency. It must put an end to all disorder in the capital, which it seems already to have accomplished. It must also demonstrate to the people of the other large cities and of the rural districts that the republic will be stable and will protect them in life and property as the monarchy has not done. Finally it must so conduct the government that the financial abuses, to which are attributed the failure of the monarchy, do not continue.

COW'S REPUTATION  
AT ISSUE IN COURT

NEW YORK, Oct. 5.—The state supreme court here has been asked for an injunction to guard the reputation of a cow. The cow's owner, Harry E. Brown, of South Portland, Me., asks that the state supreme court should restrain him from repeating his record as submitted by him to the state supreme court. The cow, "Missy" of the town, is credited by the Rhode Island Experiment station with 14,000 pounds of milk in 1909, and 15,000 pounds in 1910. The cow is a single year, and on this basis she claims to be the world's champion.

TIMES DISASTER WORK OF INDIVIDUALS;  
MUST CLASS HATRED END IN ANARCHY?

If there is any one lesson to be learned from the catastrophe which marked the destruction of the Los Angeles Times building, it is that unless the lives of the workers killed while at their toil be equally upon their heads, the result must be anarchy. So much men will stand, and the stronger may heap upon the weaker without fear of reprisal, but when a man is killed, every man will turn and fight according to his methods, whether his weapons be a club, a knife or a bomb.

It is not just to place the blame for the Times disaster upon labor unions, for every thinking man knows that no body of men outside of labor could have assembled in deliberation and sanctioned the mangling of their fellow-workers. The leaders of the labor union will not foster the plot to injure their enemy, this, the evidence can be found in their effort to help the wounded Times to its feet again.

BRIEF EDITORIAL  
FANCIES SELECTEDPoor  
Uncle Sam

A hard delegate to the Mining Congress introduced a resolution calling on the United States to establish smelters wherever ore was produced in sufficient quantities to make one necessary. Inasmuch as the congress demanded that the government should give the imperial lands away to the first comer, it is but natural perhaps that the government should be asked to extract the values for him from the minerals.

The resolution opens a fine field for speculative endeavor. Let the farmers demand the erection of government flour mills wherever wheat is produced. Let us have federal sugar factories in our beet fields and refineries in the oil territory. A government packing house is needed on the ranges, government cotton mills in the South. Federal smelters? Certainly, and Federal stamp mills for free-milling ores. Federal factories for mining machinery, and powder and fuse, and Federal hide-smith shops to sharpen the drills.

Ought a halt to be called there? Nay, let the government be compelled to do its full duty. Deprived of the title to its own resources let it be made not only to give every individual a mine, but to pay the wages of all the shifts employed in its development, equip the property with machinery, mine and mill the ore and pay over the net profits to the "owner" on the basis of a guarantee that they shall not fall below a specified minimum. Government smelters? Of course. A government that is to be compelled to give outright to individuals the mineral lands owned by all the people ought to be made to extract all the values at a reasonable cost. One requirement is as reasonable as the other. Los Angeles Express.

No Greater  
Outrage

No greater outrage, and no more nastily dead was ever committed in this country than the destruction of the property of the Los Angeles Times, and the snuffing out of the lives of a score of innocent persons. That the world might produce fanatics ready to destroy themselves and a fellow man to avenge themselves on a fellow man, is a thing that there should be no human form willing to kill and maim innocent working people is not. One may not agree with General Otis in his manner of conducting his newspaper. The California does not newspaper. The management of his paper is his affair, and those who are opposed to his policy will see him immediately strengthened by the demon-deed of Saturday morning.

It is unthinkable that the wretches who committed this crime should go unpunished if justice. That there were several of them is certain from the discoveries of attempted outrages at points distant from the Times building. And where a number of people are involved in a crime, the chances of discovering the identity of the perpetrators are greatly increased. For the good of humankind, in the interest of the public, it is of the highest importance that the friends be apprehended and that swift punishment follow.—Bakersfield Californian.

MEXICAN GOVERNOR  
DIES AT SEA

NEW YORK, Oct. 5.—A wireless dispatch received here from aboard the steamer La Savole, outward bound from Havre, announced the death at sea of former Governor Rafael Yzabal of Sonora, Mexico. The cause of death is given as congestion of the brain. Senator Yzabal was 61 years of age and was returning from a stay of several months at European health resorts.

Keep the Rooms Cool on Ironing Day

**CAPELL "HOTPOINT" GAS IRON**

Perfectly Simple  
Simply Perfect

Does your ironing for 1-4c per hour—one twentieth of the cost of electric iron. Why wait miles in course of a year between the range and ironing board? Use a CAPELL and accomplish same amount of work in one-half the time. Attach to any burner. Heats in two minutes. Regulate the temperature from gas jet. Continuous guarantee by the manufacturers. Lasts a lifetime. The "Gun-boat" point, adapted to plates and tucks. The open handle enables you to iron into the sleeve. No valves to adjust. Nothing to get out of order. Presents a clean polished surface for daintiest fabrics. Hottest at the Point, a most valuable feature. Pays for itself in saving of time and fuel in a short time.

## "Miller-Made" Means Economy

### JUST What Keeps You From Wearing "Miller-Made" Clothes?

The expense? It's really not worth while considering, because "Miller-Made" clothes are priced so reasonably that the word expense should not be used in connection with them. They are exceedingly smart, expressively good and exceptionally well made, but they are positively not exorbitant in price.

If you have \$15 to spend for a suit or overcoat we'll show you the best garment for that price in America. If you have twenty-five dollars to spend we'll show you the best for that price. We know right now that "Miller-Made" clothes contain the best value to be obtained. If you'll investigate to-day, you'll know to-morrow that such sweeping statements are justified.

ARTHUR McAFEE  
1027 J STREET

The Man Who Knows Wears "Miller-Made" Clothes.

## SOCIETY

The Leisure Hour club celebrated its fall opening yesterday in the delightful luncheon room of the club by its annual picnic. Mrs. S. L. Wiley, tables were spread in three spacious apartments, at which presided presidents of the past.

The drawing room wore the club colors, yellow and white. In gorgeous chrysanthemums, the second room was beautiful in its decorations of rich colorings in grapes and autumn foliage. The last table was a study in sundown. Besides those adorning the tables, place cards held the daintiest and tiniest of this favorite blossom.

Mrs. Wiley was at her best and a more gracious hostess could not be imagined. Her staff of assistants were Mesdames Cooper, Lane and Doyle. The numerous courses of the luncheon, served by Miss Minnie Marshall, the Misses West and Mrs. Vernon Storie, were interspersed with toasts given by Mrs. W. P. Miller, Mrs. J. E. Edwards, Mrs. Truman G. Hart, Mrs. Wiley, Mrs. Frank Lane and Miss Hatch.

The guests of honor were Mrs. Marshall, the president's mother, Mrs. Storie, and the honorary members, Mrs. Julia Pink Smith, Mrs. T. G. Hart and Mrs. J. E. Edwards.

An interesting and touching incident was the reading of a letter from Mrs. Julia Pink Smith, one of the founders of the club and until recent years one of its most zealous supporters. Mrs. Smith is the senior member of the club and a beautiful representation of a perfect old age. A toast to her was proposed, the club rising to drink to her health, happiness and lengthened days. The afternoon closed with some guessing games in which several won laurels.

The Wednesday club held its fall opening yesterday at the home of Mrs. W. T. Barr. A full attendance marked the occasion and a most interesting program filled the two short hours of the afternoon. Vacation episodes were the theme and proved far too large for the allotted time and many were "tabled" in consequence. Mrs. W. P. Miller told of her enjoyment of the Greek play, Antigone, as

portrayed by Margaret Anglin at the Greek theater. Mrs. Hockett gave a talk on the Yellowstone with many pictures of the famous region. Mrs. E. Cook reviewed her summer pleasures in the pictures of the Santa Cruz mountains. Miss Ursula Chartrand's account of her journeying through southern scenes was as sweet and charming as youth itself. With much large number of the club, the conclusion of the evening was a most enjoyable one. During the afternoon Miss Belle Ritchie gave two exquisite vocal numbers, "A Rose in the Bud" and "Baby Mine," which drew forth prolonged applause. A piano solo, "Honorake," by Anton Dvorak, completed the musical numbers, at the conclusion of which elaborate refreshments were served by Mrs. Barr and her assistants. Besides the membership there were present Mrs. George Taylor, president of the Parlor Lecture club, and Miss Belle Ritchie.

The Parlor Lecture club will hold its first meeting today at the clubhouse. Particular emphasis is made on the request that all the members will be present, as business of importance is to be transacted. Afterwards a social tea will be presided over by Mrs. George Taylor, the incoming president.

At the Fresno-Columbia Day at the County Fair yesterday carriages, automobiles, in fact, everything that had locomotion, seemed to have wended its way thitherward. Conspicuous among the smart turnouts over the well filled grounds were Messrs. L. C. Cory, S. N. Griffith, George P. Beveridge, Hector Burgess, H. W. Swift, George C. Rodding and many others.

Risley hall in festive array, was crowded last night with an unprecedented audience composed of the ladies of the Danish Brotherhood Society. Mrs. Th. Arestrop had arranged a most pleasing musical for the entertainment and deserves great credit for the interesting program, which was highly enjoyed. The numbers as designated on the artistic little program were as follows:

Part I.  
Gypsy Rondo ..... Haydn  
Miss Ella Hasselbach  
Miss Gerda Kjerbye.  
Fas Redouble ..... Sidney Smith  
Miss Catherine Toft.  
Reading, "Betty and the Owl"  
Mrs. N. T. Lockhart.  
II Travolt ..... Dora  
Miss Maren Tellman.  
PART II.  
Second Valse ..... Godard  
Miss Ella Hasselbach.  
Violin Duet ..... Blum  
a. Innocence, Gavotte ..... Blum  
b. Sparking Sprays ..... Brown  
Mr. Magnus Moller.  
Mr. Lambert Nielsen.  
Miss Toft at the Piano.  
Etude Automne, in D flat, Chaminade  
Miss Agnes Graft.  
Vocal .....  
Deuxieme Etude, in G major, Liszt  
Miss Maud Merrill.  
Mrs. Arestrop.  
Delicious refreshments were served by the committee in charge at the close of the evening.

Mr. and Mrs. Charles Spence, formerly of Visalia, are making their home in Fresno.

Mrs. J. A. Perry is visiting her mother, Mrs. Zimmerman, on Calaveras avenue.

Miss Edith Carlson and Floyd C. Lynn will be married tonight at the bride's home near Olander. The affair will be quite simple, there being no attendants. Of course there will be a honeymoon, but, as usual, the destination has been kept a profound secret.

The Thursday Night class will meet with Mrs. W. P. Miller tonight and will resume the study of the Shakespearean dramas.

Mr. and Mrs. George Cogswave were host and hostess at an informal game dinner on Tuesday night.

### SUES ON NOTE; INTEREST AT 12 PER CENT PILES UP RELENTLESSLY

Originally for \$160.00, Now  
\$195.47 Is Asked Despite  
Payments.

Judge Church Refuses to Set  
Aside Doudell Shoo  
Judgment.

Antonio B. and Mary B. Silva have been sued by Lombard & Son of Arizona, on a note of May 1, 1908, for \$160, also to foreclose mortgage on forty acres in section 16-18-21. The case is interesting as showing how a note can grow until the judgment asked may even after payments made be greater than the original figure of the note.

The note was payable \$80 on May 1, 1909, and \$80 annually in May thereafter until the whole sum due is paid without interest if each installment is paid when due, but if not then to draw 12 percent interest from date of default until paid. The mortgaged property was subject to a prior mortgage for \$1600 in favor of the Union Central Life Insurance company, and the lesser note was according to practice to cover interest and other charges due under the greater mortgage.

According to the complaint, \$80 was paid on the note on September 16, 1909, also \$3.80 past due interest and \$1 paid on account January 29, 1910, and there is due \$79 with interest at 12 percent since May 1, 1909. It is charged that the defendants did not pay \$4.97 due on May 1, 1910 on the prior mortgage nor \$112.50 due in October, 1910, for water taxes.

The suit is for \$79 with interest at 12 percent from May 1, 1909, \$4.97 with like interest and \$112.50 water taxes under the first mortgage, besides attorney fee of \$100. As provided in the mortgage and a reasonable fee to be fixed, also costs in other words, for a total of more than \$195.47, besides \$100 attorney fee and \$100 OUT.

Judge Church sustained Attorney C. K. Bonestell's objections to hearing the motion to vacate the judgment based on the report of Referee Speed in the Coalinga partnership case of John Doudell against John J. Shoo and others. The refusal to take up the hearing amounts to a denial of the motion of Attorneys Carter and Carter. Attorney Bonestell showed the court that the attorneys for the defendants had notice of the proceedings before the referee which were

## REPUBLICANS TO MEET NEXT MONDAY NIGHT

Young Men's Club to Hold  
Rousing Rally at Union  
Hall.

The Young Men's Republican club will meet in the Union hall next Monday night at 8 o'clock. The meeting will be a rousing rally for the purpose of electing delegates to the county convention. Speeches will also be given for the occasion.

Candidates have been sent out to members of the club to be present at that time and every member is urged to bring as many outsiders as possible. The meeting will be for the purpose of electing delegates to the county convention and it is expected that there will be a large attendance.

**Feet So Sore  
Couldn't Walk  
Down Stairs---**  
**TIZ Cured Her Quick**

If you have sore feet, tired feet, swollen feet, lame feet, chafed feet, smarting feet, corns, callouses or bunions, read what happened to Mrs. Crockett, of Jacksonville, TIZ DID IT. Mrs. Crockett says: "After the second treatment she walked down stairs one foot at a time. She had not been able to walk downstairs before in past five years, except by stepping down on each step with one foot at a time. This is remarkable. Send five more boxes."

No matter what ails your feet or what under heaven you have used without getting relief, just use TIZ. It's different. It acts right off. It cures sore feet to stay cured. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous excretions which cause sore feet. Powders and other remedies merely close up the pores. TIZ cleans them out and keeps them clean. You will feel better the first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. TIZ is for sale at all druggists, 25c per box, or direct, if you wish, from Walter Luther, Dodge & Co., Chicago, Ill.

**HONEST

## RAISIN EXHIBIT GIVEN FOR FAIR

Mrs. Mowat Contributes Packed Clusters in Very Attractive Form.

An attractive exhibit of packed clusters of raisins has been donated to the fair by Mrs. V. A. Mowat, the exhibit containing packages of Mrs. Mowat's own designing. The various and boxes are designed primarily for holiday trade in the East. Imperial clusters of extra fancy grade are boxed in holly red for Christmas. Fancy Delmona clusters are boxed in a delicate shade of pink, while clusters of the choice grade are boxed in terra cotta packages. They will be exhibited at the fair.

The red clusters come in one and two-pound sizes, similar to the popular confectionery boxes. On taking off the brilliantly but luxuriously colored outer one sees the dark berries arranged in a cross and tied with a profusion of red silk ribbons. The cross effect is obtained by wrapping the raisins in the corners of quality identical with the rest of the box; in white tissue paper. The raisins are made up to be suitable for Christmas presentation.

Similar clusters are followed by the Delmona clusters, excepting that the color scheme is purple. The Delmonas are designed primarily for the Thanksgiving season. The choice grade clusters are packed similarly excepting for terra cotta containers.

The popular clusters are also packed in one-pound wooden boxes, in which an attractive cover of solid gold colored paper, with an oval window in the center and with the lettering and decorations embossed only in the paper, shows the eye after the wooden top has been removed. Similar boxes for the Delmona clusters, silver paper. The regular sized wooden clusters have the same color scheme as the cluster cartons, without, of course, the aluminum.

## SHE HAS A SCHOOL BUT NOT ONE PUPIL

Lewis Creek District Teacher Knits in Loneliness of School Room.

There has been found in the county one lady teacher who, in the vernacular, has "a soft soap." She has a school, is under a fair salary and has not one pupil to teach. This ideal state of affairs cannot last much longer, because the trustees have written to the superintendent to know what they can do in the premises.

The school is in the Lewis Creek district in the Coalinga territory and located near the Fresno Hot Springs. The teacher is Miss Sara Sparks, the district pays a salary of \$75 a month, and as the school opened on the 12th of last month, Miss Sparks will receive her first month's salary without having had a child to teach.

Miss Sparks is fulfilling her contract to the letter. She reports at the school every morning, opens up and ventilates the weather-beaten little school shack, rings the bell vigorously for the pupils to assemble, but no pupil answers the summons. The five long days Miss Sparks remains in attendance in the school room waiting for the pupil that does not come, and from present indications, is not likely to appear, because he is not in the district to come forward. Miss Sparks' school life is ideal in some respects, but so awfully lonesome and lonely, because all day exercising in knitting work is not the most exhilarating pastime.

The district had for the school year before an average daily attendance of only seven, and the school census taken last April only credited the district with ten children. School opened without a child enrolled, but the engagement of the teacher was entered into notwithstanding, and now, with no young hopeful in prospect, the district board would like to have some one point out a way to avoid that contract obligation. Miss Sparks is there ready to teach, and it is no part of her employment to furnish the youngsters that she undertakes to instruct. The unexpected falling off in the district's school enrollment was due to the removal of Trustee A. J. Christman to Houghton district. When he moved, he took his six children with him and left school and teacher without a pupil. The county superintendent is trying to find another school for Miss Sparks, which is not an easy problem at this time in the school year when all vacancies have been filled. If a vacant position can be found, the Lewis Creek contract of employment will be mutually canceled.

## CITY SCHOOLS COST \$17,712 IN SALARIES

Total Shown in Budget  
Submitted for O. K. by  
Authorities.

To pay the salaries of teachers and the services of janitors and other employees in the Fresno city school district requires about a monthly expenditure of \$17,712.31.

This is the total shown in the consolidated salary list claim turned in yesterday to the county superintendent to be O. K. before being passed in to the auditor's office to be a second time verified before the treasurer will honor the salary demands. The reported total is drawn against the following named funds:

|                                    |            |
|------------------------------------|------------|
| High school                        | \$3,792.56 |
| State school                       | \$307.85   |
| Special                            | \$728.80   |
| Kindergarten                       | 155        |
| Parental                           | 57.90      |
| Superintendent and other employees | \$ 611.51  |
| Superintendent                     | 530        |
| High school                        | \$340      |
| Columbia                           | 345        |
| Commonwealth                       | \$400.50   |
| Franklin                           | 480        |

## PUPILS BARRED OUT OF NEAREST SCHOOLS

Result Will Be the Formation of a New District Out of Houghton.

There are reported to be in the most central portion of Houghton school district, temporarily one of the largest in the county, some thirty children who are not going to school. To attend their district school would mean for them daily to travel to and from school of about three and half miles either way.

Kernan is one of a little number, but they can't be received there because that school is crowded, having this year with fifty pupils, double what it had last year, and it is worrying now over the financial problem to warrant the employment of a second teacher. Houghton district school has as many pupils as the three teachers can reasonably supervise. Barred out from the one as well as the other, the children in question are practically denied schooling.

This state of affairs, it is reported, will not last long, because a new district is on foot to form a new district carved out of Houghton to take in this isolated west central portion. Whether the formation of the district and the organization of the school can be accomplished during the present school year is questionable.

**WITH HABITUAL DRUNKENNESS**  
CHICAGO, Oct. 6.—Mrs. Margaret Horton Potter, black dress, as Margaret Horton Potter gained a national reputation as an author of sensational fiction dealing with society, is charged with habitual drunkenness by a bill for divorce filed by her husband, John D. Black, in the circuit court today. Black is a son of General John C. Black, former commander-in-chief of the G. A. R. Mrs. Black was adjudged mentally incompetent last March. She is 23 years old.

**S. B. LUNG TONIC**  
Cures coughs, colds and hoarseness when other preparations fail. It is pleasant to take and good for old and young. Genuine only at Smith Bros' Drug Store.

## LAST TWO DEEDS ARE PLACED ON RECORD

City Has Full Right of Way for the Belmont District Main Sewer.

The last two of the right of way deeds for the Belmont district main sewer have been recorded at last and were placed on record yesterday by City Attorney Kauke. These deeds are across privately owned land on the proposed route of the main sewer line. The one is across block 14 of La Sierra tract, all being that tract as a continuation from Palm avenue and the other between 8th and 9th streets and the main railroad tract across the vegetable gardens.

The deed from the Central California Land and Improvement company to the city of Fresno is for the privilege to construct the sewer from a point on the southwest boundary line of block 19 of La Sierra tract twenty-one feet northwest from south corner of block, thence northeast 136 feet to a point on northeast boundary line of the block sixty feet northwest from last corner. Conditions named are that the top of the sewer shall not be less than four and one-half feet below surface of ground and all construction and repair work to be done without damage or injury or detriment to the property or improvements, but when laid above the ground then that it shall be level with the adjoining ground surface.

The second deed for like purpose is from Joseph H. House for right of way connecting at a point thirty-four feet west of the quarter corner between 4th and 5th streets, northwardly parallel with that line for 362 feet to southwest line of Central Pacific right of way. This deed is subject to right of way of property belonging to House and providing further that the city pay House

and his tenants all damage by reason of the construction of the sewer or its repair, reconstruction, maintenance or operation, and that House have the right to connect with said sewer any building on the premises located within the city limits.

## BUSINESS HOUSES ARE BURGLARIZED

The Walkover shoe store and Hittels clothing store on J street and the offices of the California Farmers' Union in the Edgerly building were entered by burglars some time Tuesday night and quite a quantity of loot taken.

Entrance to the Walkover shoe store and Hittels was effected by climbing a telegraph pole and entering through one of the top windows. The burglars took \$10 in cash from the till of the Walkover store and two suits of clothes and two overcoats from Hittels. The value of the garments exceeded \$100. At the office of the Farmers' Union \$11 in postage stamps was taken.

**WRITING TABLETS**  
Of the finest quality can be had at Smith Bros' Drug Store.

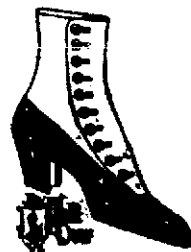

**EDGERLY BLOCK**  
Offices for rent. Apply Post-Box 3.

## LOGICAL REMEDY FOR ECZEMA

Many different remedies have been tried for Eczema and other skin diseases. But it is now known that the only possible cure is a mild, soothing liquid made up of Oil of Wintergreen, Thymol, Glycerine, and other ingredients so carefully compounded that each ingredient has its proper effect. This compound is now made up in the D. D. D. Prescription. Ten years of success and thousands of cures show the merit of this wonderful compound, but the most convincing proof is a trial of the remedy by any eczema sufferer.

D. D. D. will prove to you that you can be cured. The very first drop will give you instant relief. Get a trial bottle today. Monroe Drug Co.

PRINTER'S INK PAYS

# Cheap and convenient power is a universal demand Fresno's Light Weight Non-Vibrating Gas Engine

Meets that demand better and more fully than any other power generator in the market.

Electricity is a very cheap power when the rate is one and one quarter cents per kilowatt.

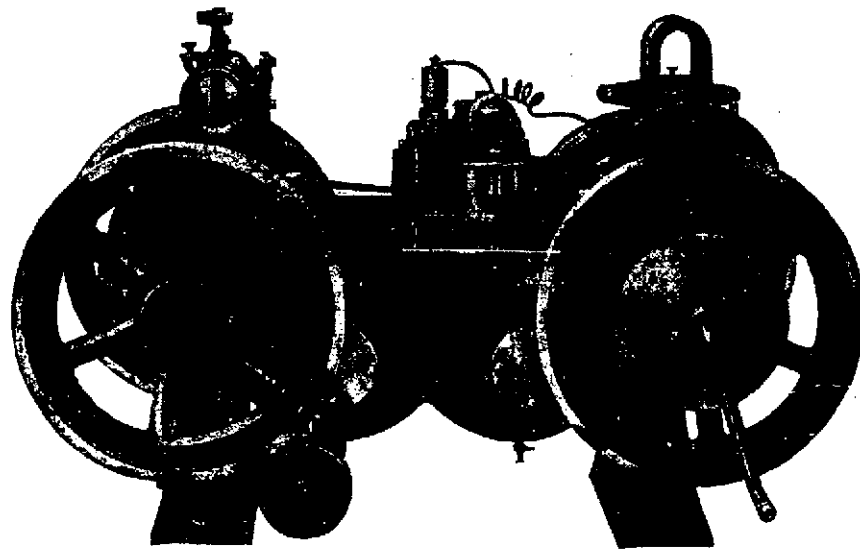

When operating on distillate at 9 cents per gallon the Morton Gas Engine will do better than that.

When the matter of convenience is considered there is nothing compares with our light, smooth running, center fire gas engine, mounted on an ordinary vineyard truck.

We stand ready at all times to prove these facts.

The equipment of this engine is as nearly perfect as can be made. Some of the items are the Bosch magnet, Schebler carburetor, multiple sight feed oiler with bar lever and friction clutch pulley.

All of the material and workmanship used in its construction are of the highest grades, and besides its many other splendid points is the ease with which all parts can be reached and cared for. With a common wrench and screw driver every nut or set screw can be handled readily and quickly.

Our exhibit of gas engines and pumps at the Fresno Fair grounds this week comprises both stationary and portable machines, six and ten inch pumps. The ten inch pump is discharging more than 3000 gallons of water per minute, while the 20 H. P. engine running it is not held down by so much as a single bolt or screw.

The exhibit is well worth a special effort to see.

Our specialty is the installing of pumping plants for all purposes.

## MADE IN FRESNO

### Engine Weights

|          |             |          |             |
|----------|-------------|----------|-------------|
| 5 H. P.  | 600 Pounds  | 20 H. P. | 2100 Pounds |
| 10 H. P. | 1100 Pounds | 40 H. P. | 3200 Pounds |

No better foundation than the bare ground is needed for the Morton Gas Engine. Concrete foundations are expensive and troublesome. The owner of our engine has no use for them.

## WALTER WHITESIDE IN "THE MELTING POT"

### BIG ATTRACTION AT BARTON TOMORROW NIGHT

Israel Zangwill's much heralded play, "The Melting Pot," reaches Fresno at the Barton tomorrow night.

The story of the play is as follows: David Quixano, a Jew, is one of the victims of the Kishinev massacre, and the sole survivor of his family, who were ruthlessly murdered amid nameless horrors perpetrated before his eyes. He himself has been wounded in the shoulder and left for dead on the scene of the massacre. He escapes to America to join his uncle, who is earning his living in New York as a music teacher. Here Quixano shows signs of musical genius, but he is from time to time overcome with fits of horror and hallucinations in which he sees before him the figure of the Russian officer who presided over the massacre. Lying with the most rigid of his grandmothers, of the most rigid of his grandmothers, with the help of a good-hearted Irish servant, keeps the household orthodox. David Quixano has been raised to the highest pitch of enthusiasm by the contest between American freedom and Russian tyranny, and he regards as God's crusade or melting pot, in which the various races and nationalities of Europe are to be melted down to form the American superman of the future. He is supposed to have expressed this musically in an American symphony, which is his masterpiece, and the proof of his musical genius.

In his professional career as violinist, David Quixano has become acquainted with and attracted by Vera Revendal, the daughter of a Russian noble, who has become imbued with revolutionary ideas, and has fled to New York, where she is engaged in settlement work. Vera is equally attracted by David and in the first act visits him to make some arrangements about a musical entertainment at her settlement, and there accidentally learns, for the first time, that he is a Jew. Notwithstanding this, she continues in her efforts for his advancement and in the second act tries to interest in him Quixano Davenport, Jr., the corrupt son and heir of a multi-millionaire. Davenport has a private orchestra, for which he has retained at a preposterous salary, Herr Pappelmeister, a genial musician of high rank. As soon as Davenport learns that David is a Jew he refuses to help him, but, by Vera's entreaties, makes him an offer of assistance after Pappelmeister has looked over the score of his American symphony and decided that a new musical force has arisen in the world. Quixano, however, on learning the name and remembering the career of one of a class who is degrading his beloved America, and Vera, aroused to admiration by his action, declares her love for him while Pappelmeister jakes

his side, and is discharged by Davenport. In the third act, Davenport has brought over to America Vera's father, Baron Revendal, in order to separate the young lovers and thus obtain Vera as his wife, as soon as he can separate from the present Mrs. Davenport. Revendal, who is a typical Russian soldier, and bureaucrat, is horrified to learn of the engagement of Vera to Quixano. The last act clears up the complication of the preceding one.

### ELLEN BEACH YAW

The seat sale for Ellen Beach Yaw concert at the Barton opera house next Monday night opened yesterday at the Barton box office and at present indicates a crowded house for one of the star events of the season. The world famous soprano will be accompanied by Mr. J. Plowe, solo flutist, and Mary Newman, pianist. In the following program:

The prices for this all-star cast will be the same as before, all the lower floor seats \$1.50 and the balcony at \$1.75 and 50c, top gallery 25c.

## 18,000 PEOPLE AT FAIR GROUNDS YESTERDAY

This Attendance Smashes All Previous Records; To Repeat Fireworks.

At 10 o'clock last night it was announced at the office of the directors of the Fresno Fair Association that approximately 18,000 people had passed through the gates of the grounds between the hours of 10 a. m. and 10 p. m. This included a thousand complimentary tickets, leaving 17,000 paid admissions, a record-breaker in the history of Fresno. This is 8000 more than the largest crowd at the aviation meet of last spring at the fair grounds.

It was also announced last night that one of the additional attractions for today will be another performance by Huppy Jack and Company. By special request the Wild West show will be repeated daily from now until the close of the fair.

TO REPEAT FIREWORKS. "It was the most magnificent fireworks display I have ever seen," said Mayer Rowell last night.

That one simple expression was the unanimous verdict of 15,000 people who witnessed the gigantic pyrotechnical display at the fair grounds in one solid chorus they demanded that the fair directors repeat the program before the close of the fair, and in obedience to that demand the directors instructed Mr. Wilson to "get busy" and arrange even a more elaborate program for Friday night, in honor of Redley-Sanger-Congressional-Senatorial day.

"Do you gentlemen know what that means?" asked Mr. Wilson. "It means that I must telegraph to Los Angeles for another cropload of explosives."

"We don't care what it means," said Secretary Powell and Vice President Dickinson, "so long as you get busy and give us as good a program as you did tonight."

"I'll tell you what I'll do," said the fireworks man. "Add \$500 and I'll arrange the program to include 'Our Navy,' one of the most spectacular pyrotechnical stunts ever seen on the face of the globe. You saw two battleships tonight. They are nothing compared to 'Our Navy.'"

"Get busy! Go to it! There's nothing too good for our patrons," again declared the fair directors.

And that settles it.

Next Friday night those who enjoy fireworks, those who went wild with delight last night, will have the additional pleasure of seeing even a finer and more gorgeous display.

ANOTHER BIG DAY. It is expected that the town will be filled to overflowing for the occasion, here on special trains, and when those two towns make up their mind to do anything they simply "get busy" and go do it.

### FALLS FROM CAR; SEVERELY INJURED

While coming in from the fair grounds shortly after 8 o'clock last night, George Krauser, fell from a street car upon which he was riding, at the alley on Tulare street between M and N streets and suffered a severe concussion of the brain and a possible fracture of the skull.

The injured man was picked up by W. M. McDaniel and rushed to the emergency hospital where he was attended by Dr. Floyd Burks. He was later taken to the Burnett sanitarium and at a late hour last night was reported to be resting easily although it was stated that he had been seriously injured. It was impossible to learn how he came to fall from the street car.

M. Cronin and C. Sussanna were arrested last night by the police for drunk

The Home of Hart, Schaffner & Marx Clothes

## It's Time For That Fall Suit

And no better time than right now — when this store offers such a variety of the finest makes of clothing and such big values for the money, every man should be dressed in a suit purchased at Goodman's. This week we especially appeal to the visitors in our city. We want you all to visit us and see the immense stocks of the highest class merchandise carried by San Joaquin Valley's largest outfitting store for men and boys.

The Price Range on Suits and Overcoats is From

\$12.50 to \$35.00

## Fits the Head--- Fits the Purse

Of course it's easy enough to get a hat to fit you — especially a soft hat. But what about prices? "No Name" hats are not high in price for their quality, and when you select one that appeals to you, it's going to suit your pocket book, as well as your taste. It is the easiest thing in the world for you to see how you look in a "No Name." Just come in and say you'd like to try one on.

## N. G. GUIBERSON WEDS. POPULAR LEMOORE GIRL

Coalinga Business Man Marries Daughter of Pioneer Family in Kings.

LEMOORE, Oct. 5.—In the presence of a few friends and relatives at 7:15 this evening, N. G. Guiberson of Coalinga, and Miss Evelyn Sweetland were united in marriage at the home of the bride's father in this city. The bride is well known here, her father being one of the pioneers of Lemoore. Mr. Guiberson grew up and gained his grammar school and high school education in the schools of Lemoore, after which she attended Stanford University. After graduating there, she took an extended trip abroad before returning to her home in this city with her father.

of Coalinga. Mr. Guiberson for some time was in charge of the Associated Supply Company stores, and for the past several months has been manager of the J. F. Lacey Supply company there. Undoubtedly "Nat," as he is most commonly known, has as many friends in Coalinga and its field as any other person. He is a big fellow and just as popular as he is big. He is a prominent member of the Coalinga Chamber of Commerce and one of the organizers of the Growers' Club, which is composed of Coalinga's foremost young men.

Following the ceremony, which was a very pretty affair, the happy pair left the Sweetland home by automobile to take the train at Hanford for their extended honeymoon through the northern part of the state, making their headquarters at San Francisco.

On their return the couple will make their home in Coalinga, where the groom's interests are. Mr. Guiberson has a nice cottage in the west residential section of this city. They are expected to return by the first of November.

WAYNESBURG, Pa., Oct. 5.—James Montgomery of this place is fond of corn on the ear, and running short of adjectives to describe his fondness, said he could eat his length of the succulent ears. His friends made him prove it, and last night he disposed of thirteen ears which was necessary to make his 6 feet 3 inches in height.

## BELL, SPELLACY AND WALL ADDRESS VOTERS OF TOWN OF SELMA

San Joaquin Valley Members of G. A. R. to Convene Oct. 18 to 20.

Notes of Personal Interest  
About People of Southern Town.

SELMA, Oct. 5.—A large and enthusiastic audience gathered at the park here this morning to hear the Democratic candidates, Bell, Spellacy and Wall, address them upon the issues of the campaign. The fact that all of the stores in the town closed and that the school scholars were dismissed made the gathering an unusual one.

The crowd was kept in suspense for some time on account of the fact that the candidates were not on hand at the appointed hour, and it was not until a half hour had gone by that a message was received announcing that the candidates' automobile had broken down near Kingsburg. John C. Boyd was not the kind of man to see democracy lie helpless by the roadside, and he went out in his machine and soon brought in the speakers.

M. G. Gallagher presided and introduced W. C. Wall, candidate for railroad commissioner, who responded with a brief speech.

Next, Mr. Gallagher introduced Tim Spellacy, who prefaced his remarks by saying he felt much at home in Selma, since the night here his first night in California, having been summoned to the state by Clarence Berry, who had befriended him in the Klondike.

Grand Old Army spirit is being shown here by Selma's veterans, who are perfecting arrangements for the annual encampment of the S. J. V. Veterans' association to be held here on October 18, 19 and 20. The local committee has raised a substantial fund for entertainment and are promising an interesting program for every minute. About 400 veterans are expected to be in attendance at the encampment.

The Selma Wednesday club met this week with Mrs. E. P. Becker and continued its study of Othello under the leadership of Mrs. W. P. Miller of Fresno.

Mrs. A. V. Wepfer received word yesterday morning of the death of her father. The death was quite unexpected, as she had just received word of his convalescence from what was supposed to be a slight illness, and the announcement that he would shortly visit her, in company with Mr. Wepfer, she left for Yreka, where the funeral is to be held.

Mrs. L. S. Cooper, who is now residing in Oakland, is here visiting her mother, Mrs. Borrecco.

Dr. O. W. Stearns and wife will leave tomorrow for San Francisco where they will spend a ten days' vacation.

Mrs. O. W. Stearns is visiting with

her daughter, Mrs. J. M. Powell, at Mendota.

Howard M. Black, mining engineer for the Davis Flat Mining company, in which Selma parties are interested, returned to the mines near Dunlap today, after having been in consultation with members of the company.

Lee Hoos returned yesterday from near Millwood, where he has a large apple orchard, and where he had a short hunt.

Miss Nellie Sturges, who now resides at Placerville, is here visiting with friends.

## CALIFORNIA W. C. T. U. TO MEET IN BERKELEY

Many Attractive Features  
Are Provided in the  
Program.

The thirty-first annual convention of the California Woman's Christian Temperance Union will convene in the First Presbyterian church, Berkeley, October 6-11. The program, as arranged by the state president, Mrs. Sarah J. Dorr of San Jose, promises to be of much interest to all who are working for the betterment of society. Probably the most interesting feature of the convention will be the address on Friday evening, October the 7th, by Mrs. Mary Harris Armour, who was president of the Georgia W. C. T. U. when that state joined the prohibition ranks. Mrs. Armour is a speaker of wonderful eloquence and power. To her is due more than to any other one person the success of the Georgia campaign.

One evening of the convention will be given to a diamond medal contest when ten young people will contest for the diamond medal. Another evening the presidents of counties making a gain in membership will tell of their victories. Respective counties will report the work of the past year, and many plans will be made for the year to come. The convention will doubtless be one of the largest ever held.

## 80,000 AUTOS ARE SOLD IN THE YEAR

NEW YORK, Oct. 5.—A tabulation of automobile statistics compiled for the American Automobile Association shows that the output of automobiles in the United States for the season of 1910 reached a total of approximately 80,000 cars, valued at about \$240,000,000.

The total annual output of horse-drawn vehicles is 1,700,000, including 925,000 buggies, 125,000 business vehicles and 500,000 farm wagons.

The automobile statistician's deduction from comparison of the totals is that if the automobile is to supplant the horse, there should be a market for many times the number of low-priced automobiles heretofore sold annually.

## JAPANESE SEEKS DIVORCE.

NEW YORK, Oct. 5.—The first appearance of a Japanese in a New York divorce court has just been recorded. The decree orders John Sa Sa, a Japanese tailor, to pay his wife \$700 a year for the support of herself and their four children. The wife is an English woman.

## STATE BOOSTING 1915 FAIR POST CARD WEEK

Valley Towns Show Interest  
in Backing San Francisco's Efforts.

All California has taken up exposition boosting in the same spirit as San Francisco. The state is going to make a united effort to get Congressional support for this city as the official site for celebrating the opening of the Panama canal. This is the end and aim of Post Card week, when millions of post cards will swell Uncle Sam's mail pouch from October 10th to 17th, bearing the request to recipients all over the country to use their influence with the Congressmen in their districts.

Most encouraging reports from the men scattered over California to help local post card committees are coming in at Panama-Pacific headquarters. A force of mailers is already at work sending out the official post cards to the outside towns.

Considerable interest is being shown in this valley.

Two Modesto newspaper men, T. C. Hocking at the Herald, and E. L. Fisher of the News, are acting as post card committee, and they are throwing the columns of their papers open in the interest of San Francisco.

Merced shows enterprise. The committee will furnish the school children on children's day the post cards already stamped. The men making this innovation are Harry Woods, C. W. Howell, Charles Hoffmann, M. D. Wood, M. C. Day, Elmer E. Smith, William T. White, Edward Ellis, T. G. Worden, Julius Ellis and G. H. Roberts.

Following is the personnel of committees in other valley cities:

Visalia—M. M. Maddox, Leon Goldsmith, W. R. Becker, C. J. Geddings, Sussman Mitchell, Ben Maddox, J. S. Johnson.

Fresno—George Babcock, Thomas Collins, E. W. Lindsay, C. L. McLane, A. L. Hobbs.

Madera—W. G. Maze, J. R. Roberts, George Brown, T. P. Cosgrove, E. E. Vincent, G. A. Clark, P. C. Thede, Joseph Bancroft, Judge William C. Conley, R. E. Rhodes, J. G. Roberts, J. B. Williams.

## Your Freckles

Need Attention in October or Face  
Will Stay Covered.

October is the time to take special care of the complexion if you wish it to look well the rest of the Fall and Winter. The Summer sun has brought out freckles that will stay the rest of the year unless removed now with Othine—double strength.

This prescription for the cure of freckles is the discovery of an eminent skin specialist, and is so uniformly successful that it is sold by Patterson Block Pharmacy under the guarantee to refund the money if it fails. Get an ounce of Othine—double strength, and even the first night's application will show a wonderful improvement. Some of the smaller freckles even vanishing entirely.

## No Need of Being Without a Bicycle

priving yourself of the pleasure and profit of owning a bicycle, because we sell on easy terms. The best wheels in the country are sold here at the lowest possible prices and on the easiest possible payments. —While we don't claim to be doing business without a profit, we do claim that our long experience in the bicycle business has given us a having knowledge second to none. —This knowledge enables us to select only the highest grade and at prices that are not exorbitant. We feel safe in saying that we can save you money, quality considered.

## Splendid Prescription for Indigestion and Stomach Misery

Heaviness, Sour Stomach, Heartburn and Belching of Gas Relieved in a Few Minutes.

Don't go on suffering from indigestion and stomach distress when a sure cure can easily be obtained.

Go to the San Joaquin Drug Co. this very day; lay down 50 cents and say I want a box of MI-O-NA stomach tablets.

Take them according to the directions which are printed on the metal box and you will soon have a clean stomach that will perform its duty without giving you any discomfort.

While MI-O-NA is noted for the quick relief it gives in stomach distress, it should be borne in mind that this great prescription surely does cure indigestion and all ailments arising from upset stomach.

The stomach as you know is the cause of much bodily misery, so if you have sickness of any kind look into the matter and see if the bad condition of the stomach is not to blame.

Upset or out-of-order stomach often

causes dizziness, biliousness, sickness, headache, sleeplessness, bad dreams, foul breath, shortness of breath, constipation, weak eyes and loss of memory.

If you are troubled with any of the above symptoms, the chance are that a 50 cent box of MI-O-NA stomach tablets will make you as good as over in a few days. Certainly you owe it to yourself and family to keep in good health, and if MI-O-NA doesn't help you, your money will be returned.

MI-O-NA has cured thousands of cases of stomach disease where everything else has failed. It surely will cure indigestion. Sold by the San Joaquin Drug Co. and druggists everywhere. Price 50 cents. MI-O-NA tablets are small and easily swallowed, and the neat metal box which can easily be carried in the vest pocket contains a large supply. Mail orders filled, charges prepaid, by Reckitt's MI-O-NA, Buffalo, N. Y.

# Valley Foundry & Machine Works

For gasoline and distillate engines and centrifugal pumps. Our engines are the simplest and smoothest running engines made. We carry a full and complete line of casing and fittings, including gate valves, check valves, foot valves, tees, elbows, 45° elbows, bushings, reducers, nipples, flanges, etc.

We make a specialty of threading pipe and casing of all sizes. We have the only large pipe machine in the Valley. We have the most up-to-date Jobbing Foundry & Machine Works on the Coast. We do pattern work and make iron, brass, bronze and aluminum castings. We make a specialty of gear cutting, both large and small, in fact if you bring your work to us we can do everything connected with the job. We don't have to go outside to get any part of it done.

HERE IS THE WAY USERS OF OUR GAS ENGINES SPEAK OF THEM

Kerman, Cal., Sept. 2, 1910.

Valley Foundry & Machine Works, Fresno, Cal.

Gentlemen: Replying to your favor of the 1st inst., regarding the 12 H. P. Engine and 6 inch Pump recently installed by you, I wish to say that I am more than pleased with its work.

It certainly fills a long felt want after having used another make of Engine and Pump, as I am now pumping more water with less expense and trouble.

I can truthfully recommend the Valley Engine and Pump to anyone in need of a first-class pumping plant.

(Signed.)

Yours very truly,

W. C. HALL.

We carry a full and complete line of power transmitting machinery. We have two car loads of steel split pulleys on hand and a large stock of shafting, belting, hangers, babbitted bearings, couplings, collars, etc.

# News of Oil Fields

## LOST HILLS WELL WILL BE PUT ON THE PUMP PROBABLY TODAY

Local Oil Men Join in Exodus to Scene of Light Oil Strike.

Associated Has Much Land in Vicinity; Others Are Buying.

The Martin and Dudley well on section 10, which is a considerable producing well in the new Lost Hills light oil region and is now causing a rush which threatens to assume large proportions to that section, will probably be put on the pump today. The hole is about 500 feet deep, with a single string of casing, and with 22 gravity oil found in it, it is believed to be the first well in the district destined to have a great future.

The rush to the Lost Hills, which are about sixteen miles almost due east from the Devil's Den Consolidated property, and are in Kern county, is setting in here as well as in Bakersfield. A number of local oil men are now on the ground, and others are going at once. It is understood that a quantity of land in the vicinity is not included in the recent federal withdrawal from location, and for this reason is open to people who wish to prove up claims.

In this connection a heavy demand for portable rigs is said to exist. The Martin and Dudley well is expected to make several hundred barrels on the pump, though it is conceded that it would be a fine property if it made only 100 barrels of the light oil which has been shown by test.

Some time ago efforts were made to interest local capitalists in this territory, which is a thing entirely new. However, when nothing was done about it, the Associated was approached, and sent about half a dozen experts into the hills. As a result of this move the Associated is said to have gotten immense holdings in the region, but how much is not stated. It is even said that millions may be expended by the corporation in punching down holes for the light oil.

This company has a pipe line within some seven miles of the territory, and with the matter of the market made clear by the recent Agency-Associated contract, it is felt indications are good for a rejuvenation of the rush spirit. Even out on the flat in the west of the well that has been successfully brought in, a flat which extends out toward the Devil's Den region, a large amount of patented land is said to have been bought up, and deals are being made for more of the territory.

The Lost Hills are a low range south of the Kettleman hills, and extending in the same general direction. The anticline has been traced along the summit of the rise. It is considered probable that extension of activity northward to meet that which is working southward from the Coalinga field along the line of the Kettleman hills. In fact, it is thought that the day is near when predictions of oil men that there will be a line of derricks from Coalinga to the proven fields of Kern county will be realized.

## PLAN FOR HOMESEEKERS EXCURSION FROM LOS ANGELES SOON

Real Estate Board Chooses Committee to Arrange Trip This Month.

Action on Tax Amendment Postponed to Get More Data Together.

The Fresno Real Estate board at its luncheon yesterday noon set on foot plans for an excursion to be run from Los Angeles to Fresno late this month, for the benefit of homeseekers. A committee consisting of Charles Teague, J. Q. Anderson and T. M. Anton was appointed by President F. J. Haber to perfect the arrangements. The matter was brought before the board by W. N. Harris, representing a homeseekers company of Los Angeles.

Such an excursion was run last year by Modesto, and was found to be a success. It is believed that this will furnish a good means for attracting a large part of the tourist travel to the West, which is expected to assume very large proportions before the season is over.

In the past it has been found that the tourist, as a rule, unless otherwise directed, will make a tour of Los Angeles and the adjacent neighborhoods of the South, and will then jump to San Francisco. If he comes north at all, either by a Coast line, or by a night train through the valley. This gives little opportunity for seeing the resources and attractions that Fresno has to offer.

Though no definite date has been set for the excursion, it is expected that the details will be perfected in a few days, and given out in the public. The matter of the new tax amendment and the discussion of the general question of the segregation of state and county taxes, was a special order of business for yesterday's luncheon, but after a short discussion, was postponed to go over until the next meeting, as the exact date on the act had not been obtained in form to be used as a basis of discussion.

Plans were formulated for pushing ahead the sale of the views of Fresno recently taken from a balloon above the city. Between 1880 and 1100 of these views have now been disposed of.

**AGED BROKER SUICIDES.**  
SAN FRANCISCO, Oct. 5.—Morris Epstein, an aged retired stock broker, committed suicide by shooting himself through the head. He was partially paralyzed.

## EXPECT ADVANCE IN OIL STOCK VALUES

The effect of the closing of the Agency-Associated contract, assuring a market for the oil which has been stacking up in storage and clearing the atmosphere in the oil industry generally, has been at once seen on stocks. There was a great deal of activity reported among brokers yesterday. The Associated Oil stock, which the S. W. B. & Sperry stock, have shown in a marked degree the effect of this deal, the movement beginning before the general public knew definitely of the closing of the contract or when it was likely to be closed. It is predicted that the developments of the last few days will soon be followed by a phenomenal rise in values of stocks, though to what extent this will go is now only guess-work.

## COALINGA NOTES

Material for three rigs is being hauled to the Camwell, on 22-19-16. A splendid residence is to be erected on the Empire for the use of the superintendent, W. R. Culbertson, and the officials of the company. It will be one of the best in the field and most modern in every particular. The lumber is being hauled today. Coalinga Midland, 10-18-15, has completed the erection of a cook and bunk house. The Six Acres well on 8-21-15 is successfully cemented off and drilling will be resumed tomorrow. It was cemented off at 204 feet in ten-inch casing, and after being allowed to set was bailed dry and left for some time for a thorough test.

## BAIRD TO CEMENT OFF A THIRD TIME

The Baird Oil Company, which is operating in the Kettleman Hills, drilled through the cement Sunday and found the job again failed to hold water. This is the second time the company has cemented off. A third job will now be necessary before work can progress further on the well. The water is from above, and it is quite necessary that the best sort of job be made of it. The company has not decided yet who will be engaged to make the third attempt.

**DEAD MAN ON PILOT.**  
DUNKIRK, N. Y., Oct. 5.—When the engineer of a Lake Shore passenger train alighted from his engine here last night he found a dead man sitting bolt upright on the pilot. From papers found on the body it is believed to be that of Charles Kenney, of Brockton, a coroner. He was probably killed while crossing the tracks.

Edgerly Block—Call Pearson's Exchange.

## CLAIM JUMPERS IN LOST HILLS REGION ARE MAKING TROUBLE

(Special to the Republican.)  
BAKERSFIELD, Oct. 5.—Late reports from the Lost Hills, the new light oil region in the northern part of this county, state that claim jumping troubles have already started there. The big rush into this region began from here last Sunday, when many people started during the wee hours to get on the ground by daylight. Probably 200 people went from here at the time. There are lands open for location in the region, and trouble have been expected.

## Talks On Osteopathy

BY  
**A. L. HUNT D. O.**  
OSTEOPATHIC PHYSICIAN

Spinal curvatures that have been caused by accident or by a weakness of the ligaments can nearly always be cured by Osteopathic measures, if taken in a reasonable time, and can be benefited at almost any stage. Spinal troubles that are caused by tubercular troubles are of a very different nature, however, and require a different treatment; they may be helped in many cases, and in nearly all cases the disease may be checked. In any case it is well worth while to have a thorough examination and really know what conditions exist. Call any day, and have your case examined—you will not be under obligations to have treatment, and will not be made to feel so. There will be no charge for either consultation or examination.

## Health and Beauty Queries

BY MRS. MAE MARTIN.

**E. B. S.**: Although gray hair is sometimes caused by worry, it is generally due to a diseased scalp as indicated by such symptoms as the dandruff, itching scalp and brittle, falling hair of which you speak. To restore your scalp to a healthy condition, first keep it clean by shampooing every ten days or two weeks with canthar, then massage the scalp, using a good quinine hair tonic. You can prepare the tonic yourself by adding one ounce of quinine to a half-pint of alcohol and a half-pint of cold water. This is much better than most ready-prepared hair tonics as it contains nothing to make the hair coarse, sticky or stringy. It will remove the dandruff and stop your hair from coming out. You will find it an ideal dressing for the hair and very refreshing to an itching scalp.

**R. M. D.**: (a) Do not let your superfluous flesh worry you. Even though you have spent many dollars trying different so-called "flesh reducers" without any of them doing a bit of good, I want you to try this one. I have many friends who tell me it did wonders for them. Get four ounces of paraffin from any drug store, dissolve it in 1 1/2 pints hot water and take a tablespoonful a few minutes before each meal. It is harmless and will cut down your fat rapidly without the necessity of dieting or strenuous exercising. (b) That good eczema remedy you ask for is called luxor.

**A. F. S.**: To be sure, health and beauty go hand in hand. Indigestion and sluggish liver cause impure blood, which in turn breeds ugly blotches, pimples and skin eruptions, accompanied often by depression, melancholia and headaches. These may be all removed by the judicious use of a simple home-made system tonic and blood purifier, made as follows: Dissolve one-ounce of karsene and one-half cup of sugar in one-half pint of alcohol; then add enough hot water to make a full quart of the remedy. Take a tablespoonful before each meal. Karsene stimulates the digestion, arouses a torpid liver, purifies the blood and gives tone to the whole system. By a natural process the complexion is cleared, the "dried feeling" vanishes, and energy and enjoyment of life returns.

**G. E. A.**: It may be all right to use dry shampoo powder where you are very careful to brush out all of the powder; otherwise it will clog up the pores in the scalp and cause dandruff, the very thing you should avoid. To keep your hair looking bright and healthy and make it stay in curl, you must not use a shampoo that contains alkali, as soap and most shampoos do. Dissolve a teaspoonful of canthar in a cup of hot water and you have a shampoo that can't be excelled. It will remove all excess oil and dirt, and leave your scalp free from irritation. This shampoo dries quickly without causing streaks, faded patches in the hair. It will make your hair soft and fluffy so it will stay up and look nice without the use of a hair net or veil.

**Doris**: If you wish to make a greasiness complexion cream jelly that will quickly clear your complexion of freckles, tan and sunburn without the necessity of several months' treatment, you can easily prepare it at home by mixing together an ounce of almond oil, two teaspoonfuls glycerine and one-half pint cold water, stir briskly and let stand over night. Where applied frequently you will find this an excellent cream for removing wrinkles, blackheads, freckles, roughness and other skin blemishes. It will leave the skin smooth, clear and velvety, and is a matchless preparation for massaging and reducing the size of large pores in the skin.

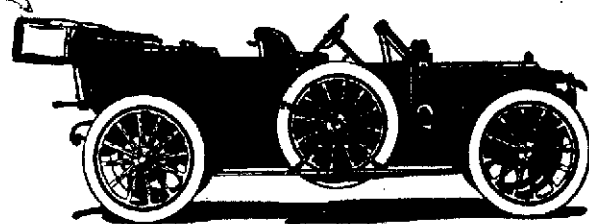

**T. H.**: Plain delatone is the best thing I ever heard of to remove superfluous hairs from the face and forearm. It costs more than the electric needle, is painless and requires little time. Of course, the hairs may return, but if they do they will be thin and light in color—scarcely discernible. A second or third application will rid you permanently of the annoying hairs. Delatone costs a dollar an ounce, but one ounce is all you will ever need. Simply mix a little delatone with enough water to form a paste; cover the skin from which you wish to remove the hairs with this paste; let it remain two or three minutes, then wipe off and wash with warm water.

**Mary F.**: By devoting just a little time each day to the care of your complexion, you can ward off the marks of approaching age and have the same attractive, youthful-looking features as your younger friends. Use a good, greasiness complexion cream (see answer to Doris), and instead of clogging up the pores of your skin with face powder, get a dependable lotion and use it exclusively. You can make such a lotion by buying four ounces of apurmax at your druggist's and dissolving it in one-half pint hot water; then add two teaspoonfuls glycerine and when cold, apply freely to your face, neck and arms. This lotion is inexpensive and unequalled as a skin beautifier. It does not rub off or show like face powder and you will find it excellent for removing that shiny, muddy look from your skin. I find it good for removing and preventing freckles, skin pimples and any unnatural skin roughness.

**B. W.**: If my eyes continually had that tired, overworked feeling you say yours do, I would lose no time getting a good tonic for them. My eyes are inclined to be weak and I keep them in good condition by using a simple, inexpensive remedy made by dissolving an ounce of crystals in a pint of water. A few drops in each eye occasionally will readily relieve inflammation and make one's eyes bright and sparkling. Try this and I am sure you will not need to wear glasses. It is a splendid tonic for weak, watery eyes, also granulated lids.

## BROWN COLT BREAKS WORLD'S RECORD AT LEXINGTON TRACK

Justice Brooke Steps Mile in 2:09 1-2, Lowering Mark for Two-Year-Old Stallions; Sensational Trotting at Circuit Races.

LEXINGTON, Oct. 5.—Justice Brooke, a brown colt by Baron Dab-Epexation, owned by the prominent Farm at St. Clair, Mich., won the two-year-old division of the Kentucky Futurity today in straight heats and broke the world's record for two-year-old stallions in the second mile in 2:09 1-2.

The two heats of Justice Brooke also beat the record for a two-year-old in two-year-old trotters. Native Belle had previously taken the record by her two heats in 2:13 3-4 and 2:09 3-4 last fall in the Futurity here. Her heats averaged 2:10 3-4, which Justice Brooke's two in 2:11 1-2 and 2:09 1-2 averaged 2:10 1-2, or a 1-4 second better.

Spokes, which had been a strong favorite for the race, was withdrawn on account of sickness.

The 2:08 pace, postponed from yesterday, was won by Independence Boy, his time in the heat run today which decided the event, being 2:09.

## BASEBALL SEASON AT DETROIT CLOSES AND TEAMS BREAK EVEN

Cobb and Lajoie Each Grab Three Hits in Six Times Up; Senators Tie Red Sox; Manager Mack Gets an Automobile.

DETROIT, Oct. 5.—The baseball season here closed today with Detroit and Cleveland breaking even, the first game going to Cleveland, 8 to 2, in ten innings, while Detroit took the second, called on account of darkness, at the end of five innings. Cobb and Lajoie broke even on the day, each getting three hits in six times up. The score:

First game. R. H. E.  
Cleveland..... 8 2 0  
Detroit..... 2 3 1  
Mittell and Smith; Mullin and Casey.

Second game. R. H. E.  
Cleveland..... 4 5 4  
Detroit..... 4 5 4  
Blanning and Land; Summers and Stange.

WASHINGTON, Oct. 5.—Washington bunched three hits in the last inning today and with Wagner's wild throw to the plate tied the score with

The association announced the putting on of a 2:09 pace for an \$800 purse for Friday, October 7th, in place of 2:02 pace declared off.

Annually, Lee, owned by George H. South and raised last year by Geers, dropped dead from an intestinal hemorrhage near the turn into the stretch in the last heat of the 2:11 pace. Her driver, McCoy, was unhurt.

RESULTS.  
2:08 pace, 2 heats Tuesday, purse \$1000, 3 in 5.—Independence Boy won; Harry Mc second; Lady Isle third. Best time 2:04 1-2.

2:15 trot, purse \$1000, 3 in 5.—Peter Dorsey won; Major Wellington second; Oxford Boy, Jr., third. Best time 2:04 1-2.

2:11 pace, purse \$1000, 3 in 5.—Princess Hal won; The Orator second; Mark Knight third. Best time 2:08 1-4.

## GREAT PITCHER WHO HAS MADE NEW STRIKEOUT RECORD

JOHNSON  
PITCHER  
WASHINGTON

WASHINGTON, Oct. 5.—When Walter Johnson, the star pitcher of the local team, fanned ten of the White Sox players in Chicago recently he established a world's strike-out record for a season. Johnson's total after the recent game was 301 for the year.

The former record was 301, made by "Rube" Waddell in 1903. This is not the only pitching record Johnson has established. He holds one other, which perhaps will never be equaled in a major league—that of shutting out a team without a run three consecutive games.

This Johnson accomplished in the fall of 1908 in New York, when he pitched three consecutive days against the Highlanders and did not allow them a run. The feat was a most remarkable one and will probably stand unequalled for all time to come. Johnson has been a sensation ever since he broke into the American league, but there are reasons for believing that he is just now rounding into his very best form.

He has pitched much better this season than ever before, and his work seems to be improving. He should be the sensation of next season if he continues to improve.

He has pitched much better this season than ever before, and his work seems to be improving. He should be the sensation of next season if he continues to improve.

SUMMARY.  
Home runs—Vernon, three—base hit—Vernon, Lively (2). Ross, sacrifice hit—Piel. Bases on balls—Off Brackenkridge, 1. Struck out—By Brackenkridge, 2; by Lively, 4. Double plays—N. Brashers to Brown to N. Brashers; Carlisle to Brown to N. Brashers. Time of game—1 hour and 45 minutes. Umpires—Hildebrand and Van Halst.

NEW YORK, Oct. 5.—According to reports from London, Gama, the great East Indian wrestler, who has been a sensation in England for the last two months, is coming to this country to seek a match with Champion Frank Gotch. Gama recently defeated Dr. Joller, the American crack, in easy fashion. Later he tackled John Lemm, the Swiss champion, and threw the latter twice in a half hour. Gama's last bout was with Zlysen, the Polish giant, whom Gotch defeated in Chicago last spring. After wrestling for over two hours and a half the referee stopped the contest owing to darkness. According to many experts, Gama is the greatest mat artist Europe ever produced, not excepting Hackschmidt.

Park, Frank, Dickinson's rejuvenated Tigers beat Rakersfield, 4 to 3, before a small crowd. The same teams will try conclusions again today.

The lineup of the teams that played at the Fresno fair grounds yesterday was: Hickmans—Dunn, c.; Reuter, lf.; Smith, ss.; Sunderland, 2b.; White, cf.; Gama, 3b.; Rasmussen, 1b.; Hanson and Robinson, rf.; Johnson, p.

Kutners—Wagner, ss.; Gatewood, lf.; R. Ford, 2b.; G. Preston, rf.; Dalton, cf.; S. Dard, 3b.; Barton and Gates, 1b.; G. Dunham, c.; Gates, p. and 1b.; Harding, 2b.

## PACIFIC COAST LEAGUE WILL REMAIN AS IT NOW STANDS

Proposition for Eight-Club Organization Turned Down at Portland Meeting; Beaver City to Have Continuous Ball Next Year.

GAMA  
PHOTO BY AMERICAN PRESS ASSOCIATION

PORTLAND, Oct. 5.—The Pacific Coast League will not be changed to admit teams other than Portland from Northern cities. The Northwestern League will be permitted to place a team in Portland next season, providing Congress can W. W. McCreary will finance the Northwestern League team.

This was the upshot of the meeting between a committee from the Pacific Coast League and the managers of the Northwestern League, held here today. Those who participated were Charles Graham of Sacramento, representing Home Base and Edward Walter of Los Angeles, W. W. McCreary of Portland, David L. Douglas of Seattle, Edward Green of Tacoma, Joseph Graham of Spokane and L. P. Brown of Vancouver, B. C.

The original purpose of the meeting was to devise a plan whereby the Pacific Coast League could be enlarged to an eight-club league. Both the coast and Northwestern managers were agreeable to this idea, but they split up on the make up of the league. Graham, representing Home Base and Walter, of Los Angeles, were in favor of the Pacific Coast League as it now stands, while McCreary, who is McCreary's agent, was in favor of the Northwestern League as it now stands.

Next time the proposal to allow the Northwestern League to place a team in Portland to this Graham assumed, providing the team should be financed by Judge McCreary, which McCreary agreed to do. This means that Portland will have continuous baseball next season as in 1909, the Northwestern League playing here on dates when the Pacific Coast League's Portland team is away from home.

Both sides were unwilling and the proposition was dropped.

## YALE ELEVEN WINS EASILY FROM TUFTS

**NOTICE OF ASSESSMENT**  
The Fresno Oil Company, a corporation, principal place of business at Fresno, Fresno County, California, is hereby giving notice that at a meeting of the Board of Directors of said corporation, held on the 25th day of September, 1910, an assessment (No. 2) of ten dollars (\$10) per share was levied upon the capital stock of said corporation, to be paid on or before the 15th day of October, 1910, at the principal place of business of said corporation, at Fresno, Fresno County, California. Any stock upon which this assessment shall remain unpaid on Saturday, October 15th, 1910, will be sold at public auction and unless payment is made before, will be sold on Saturday, October 15th, 1910, at 10 o'clock a. m. to pay the delinquent assessments, together with costs of advertising and expenses of sale. Dated this 5th day of September, 1910.  
C. L. ADAMS,  
Secretary of said Corporation.

**NOTICE TO CREDITORS**  
In the Superior Court of the County of Fresno, State of California.  
In the matter of the estate of Thomas H. Prince, deceased.  
Notice is hereby given to the creditors of Thomas H. Prince, deceased, that all persons having claims against Thomas H. Prince, deceased, are required to file and verify the same with the necessary vouchers to S. C. St. John, the executor of the will of said Thomas H. Prince, said deceased, at Rooms 209 and 210, Land Company Building, situated at the southeast corner of Main and J streets, in the city of Fresno, the same being the place where the business of said estate will be transacted within four months after publication of this notice, to-wit: the 5th day of April, 1911.  
Dated this 5th day of September, 1910.  
S. C. ST. JOHN,  
Executor of the will of Thomas H. Prince, deceased.

**DELINQUENT SALE NOTICE**  
Fresno-San Francisco Oil Co. Location of principal place of business 324 J St., Huber Building, Fresno, California.  
Notice: There is delinquent upon the following described stock, on account of Assessment (No. 14) levied on first day of August, 1910, the several amounts set opposite the names of the respective shareholders, as follows:

**BIG PAVILION CROWDED**  
The big pavilion ground under the weight of tons of beautiful exhibits and the tremendous weight of thousands of moving, happy people, who passed from the main floor to the top floor continuously. In the center of the great throng stood dozens of de-

given to each baby entered as a  
winner of the occasion.  
The rules under which the contest  
will be conducted are as follows:  
No entrance fee charged. Each baby  
receives a silver spoon.  
Babies must be entered by noon,  
Thursday, October 6th.  
The time of judging is 3 p. m.  
Thursday.  
Only babies less than 2 years old  
may be entered.  
A pink ribbon must be attached to  
boy babies and a blue ribbon to girl  
babies.  
Mrs. R. A. Powell is the superin-  
tendent.  
Babies can be entered in only one  
class except in case of specials.  
Trophy prizes will be given, du-

Captain Hopking was entitled to the praise she received for her capable and very pretty team.

Opposed to this team was the team from Acacia Circle, No. 18, Women's Woodcraft. Captain May Hanscom, a pleasing personality showed confidence from the start. The team to the field like veterans and after a half hour's drill, during which time they went from one difficult evolution to another, the judges decided they had a very difficult problem on hand. However, they having all been soldiers, decided to
